Press Release

Safe Street Campaign Acquires Face2Face, Bay Area Channel 5

May 6, 2010, Moss Beach, California.

Safe Street Campaign, a Tacoma, WA based organization added two Face2Face systems to fight crystal meth problems in the Western Washington State. During the past 20 years, the Safe Streets Campaign has partnered with local organizations, community members and local government to better equip individuals and neighborhoods to combat crime and take back their streets. *“The best deterrent to crime is for you to get to know your neighbors.” – said Priscilla Lisicich, Executive Director of Safe Streets Campaign.*

Bay Area CBS Channel 5 has reported on April 30 in the evening news about Face2Face. This report was repeated in the afternoon news on May 3. Reporter Sharon Chin visited Ukiah High School and interviewed students as well as Sheriff Allman about the impact Face2Face demonstration made in the community. <http://cbs5.com/crime/face.2.face.2.1668082.html>

Face2Face system has been developed to fight the Methamphetamine epidemic by showing people at risk how their faces will look like in 6 months, 1 year and 3 years after using meth. By personalizing the drug awareness message, Face2Face is effectively used in education and prevention by showing the shocking visual changes meth causes.

Abalone LLC is pleased to announce a new upgrade to Face2Face, the Face2Face F (for Fuji) 1, available immediately for the same price as before! (It is a free software upgrade for existing customers). The new system uses a single, imported Fuji Finepix W1 stereo camera to take the dual images required to create the 3D heads.

The new camera eliminates the need for all of the hardware of the earlier system, such as the stereo-bar, the USB hub, the remote control, back-picture, thus making the system much more portable and easier to set up. Most significantly, the new system reduces the former 2-3 minute processing time to about 1-1.5 minutes in most cases. No more waiting for the process to finish!

Face2Face software runs on Windows Vista and W7 computers, comes with unlimited tech support and upgrades. The software is fully automatic - with a single click the head is created. Buttons allow to view and print the 6 month, 1 year and 3 year images.

Face2Face (with Fuji camera, software) sells for \$3,795. More info: www.abaloneLLC.com

Abalone LLC is located in Moss Beach, California.
