

BEADED RING

Create a matching ring to wear with your wide loop bracelet!

Weave two rows of loops to make this ring, using the same faceted beads that you chose for the bracelet.

1. Measure and cut about 30" (77 cm) of nylon thread.

2. Follow steps 2-6 of the WIDE LOOP BRACELET and create one row of eight loops.

Check the ring for size by wrapping the row of loops around your finger. You want it to fit snugly around your finger. One more loop of beads will be added to this row when you close up the ring, making the ring bigger than it is now.

Important: If you need to adjust the size by adding or removing a loop, do it now before proceeding with step 3.

3. Follow steps 7-8 of the WIDE LOOP BRACELET and create a second row for the ring. Repeat step 8 of the bracelet to add all the rest of the loops for this row of the ring.

4. Circle the rows of beads around.

5. Add two beads. Bring the thread through bead 1 on the other end of the ring.

6. Add two beads. Bring the thread through beads 1 and 2 on the other side.

7. Add two final beads. Bring the thread through beads 1 and 2 on the other side. Tie a secure double knot and cut off the excess thread.

FLOWER BRACELET

Color Guide

Weave crystal beads into a chain of colorful flowers!

This color guide is just a suggestion for one flower color combination. You can alternate other color beads with the purple, making each flower a different color.

1. Measure and cut 80" (204 cm) of nylon thread.

2. Slide one purple bead, one green bead, and one purple bead onto the middle of the thread.

3. Bring the left end of the thread through purple bead 1.

4. Bring the right end of the thread through the other purple bead. At this point, check that the group of beads is centered on the thread. If not, slide it along the thread to center it.

5. Add one green bead and one purple bead on the left thread. Bring the thread through purple bead 1, new green bead 2 and new purple bead 3.

6. Add one green bead and one purple bead on the right thread. Bring the thread through purple bead 1, new green bead 2 and new purple bead 3.

7. Add one purple bead and one green bead on the left thread. Bring the thread through purple bead 1 and new purple bead 2.

8. Add one purple bead and one green bead on the right thread. Bring the thread through purple bead 1 and new purple bead 2.

9. Add one green bead on the left thread. Bring the thread through purple beads 1 and 2, and new green bead 3.

10. Bring the right thread through green bead 1.

11. Add two purple beads on the left thread to begin a new flower.

12. Bring the right thread through purple beads 1 and 2.

13. Repeat steps 5-10 to complete this new flower.

14. Repeat steps 11-12 and steps 5-10 for each flower of the bracelet. Make enough flowers to fit loosely around your wrist (about 12 flowers). After the last flower, tie both ends of thread to one half of a clasp. Cut off the excess thread. On the other side of the bracelet, bring a piece of excess thread through the last green bead and tie it to the other half of the clasp.

**CHOKING HAZARD-Small parts.
Not for children under 3 years.**

Crystal Bead Jewelry™

No. 1888-08-A

Ages 5 and up
Conforms to ASTM D-4236

Dear Customer,

We hope you enjoy our Crystal Bead Jewelry™ set. If you find that we have made an error or if something is missing or damaged, let us know so that we can correct the problem for you.

Please include the following:

- Name of item
- Date of Purchase
- Purchase Price (please include sales slip)
- Model number
- Place of Purchase
- Brief description of the problem

Do not return the kit to the store where you purchased it, they will not have the replacement parts!

Send all correspondence to: **NSI International, Inc.**

105 Price Parkway
Farmingdale, NY 11735-1318
Attn: Quality Control Department

YOUR SET INCLUDES THE FOLLOWING ITEMS:

Assorted Faceted Crystal Beads

Assorted Seed Beads

Clasps

Workstation

Use this workstation to organize and store your beads

Nylon Thread

Elastic Cord

STRETCHY BRACELETS

These single strand bracelets are easy to make and lots of fun to wear. Any color or size bead can be used, and the elastic cord stretches on and off your wrist without a clasp.

Create a whole cluster of these colorful bracelets to wear at one time!

1. Using the ruler on page 1, measure about 10" (25 cm) of elastic cord for each bracelet. Adult supervision is recommended when cutting the cord.

2. Tie a knot at one end of the cord. String enough beads onto the cord to fit loosely around your wrist.

3. Center the strand of beads on the cord. Tie the two ends together with a secure double knot. Cut off the excess cord after the knot.

TRIPLE STRAND CHOKER

Use nylon thread to create three single strands of beads for this choker. The beaded strands are twisted together and attached at the ends with a clasp.

- Using the ruler on page 1, measure 20" (50 cm) of nylon thread for each strand of the choker. With adult supervision, cut three strands of nylon thread at that length.

- Tie all three pieces of nylon thread together at one end with a secure double knot.

- Pull apart the two halves of the clasp.

- Insert the loose ends of the strands into the barrel end of the clasp.

- Slide the clasp over all three strands towards the knot. Slide the clasp over the knot as well. The knot should fit inside the barrel of the clasp, but not come through the smaller hole on the outside of the clasp. Tug gently on the strands to make sure that the knot will hold.

Note: If the knot is too small, it will slip out of the clasp. Make the knot larger by tying another knot on top of the first knot.

- String an equal number of beads on each strand of the choker. Make each strand a different color, or create a pattern on each strand by alternating 2 or more colors of beads.

- After all three strands of beads are complete, hold the clasp between the fingers of one hand, and twist the ends of all the strands together with your other hand, creating a twisted rope design.

- Without letting the strands untwist, fit the 3 ends of thread into the cap of the clasp. Tie the thread to the clasp and cut off the excess thread. To close your choker, snap the two halves of the clasp together.

LOOP BRACELET

This bracelet is made with loops of faceted crystal beads.

Make a colorful pattern with 2 or more colors of beads. (Red and clear beads are shown here.)

Color Guide

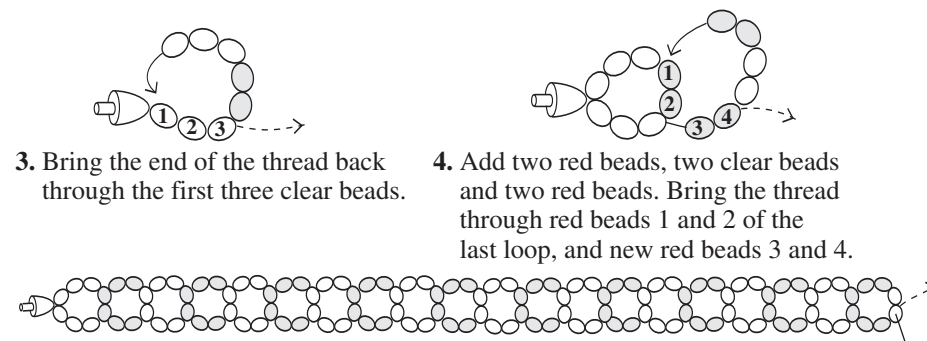

- Using the ruler on page 1, measure 55" (140 cm) of nylon thread. Adult supervision is recommended when cutting the thread. Tie a knot at one end of the thread and attach it to the barrel end of the clasp. Refer to page 2, TRIPLE STRAND CHOKER, for instructions on how to attach the clasp.

- Slide three clear beads, two red beads and three clear beads onto the thread.

- Add two clear beads, two red beads and two clear beads. Bring the thread through clear beads 1 and 2 of the last loop, and new clear beads 3 and 4.

- Continue to alternate steps 4 and 5, adding more loops of red and clear beads. Create enough loops to fit easily around your wrist (about 20 loops). After the last loop, bring the thread through bead 1 as shown above, then tie the end of the thread to the cap of the clasp.

WIDE LOOP BRACELET

Weave a wider crystal bead bracelet with three rows of loops. The clasp is added on after the weaving is complete. Create your own colorful design using various colors of crystal faceted beads.

- Start with about 60" (153 cm) of nylon thread. Additional thread will have to be added on as you complete the bracelet.

- Slide six faceted crystal beads onto the thread.

- Circle the thread around and tie a secure double knot to create a ring of beads.

- Add five more beads. Bring the thread through bead 1 of the ring, and through new beads 2 and 3.

- Continue to repeat step 4 and add enough loops to fit easily around your wrist. You will probably need about 19-20 loops.

- When you get to the last loop of the row, bring the thread through bead 1 of the last loop only.

- To begin the next row, add four beads. Bring the thread through beads 1, 2, 3 and 4 of the last row.

- Add three beads. Bring the thread through bead 1 of the last loop, and beads 2, 3, 4 and 5.

- Repeat step 8 and continue to add more loops to this row of the bracelet. Stop just before the next to last loop of the row. Proceed to steps 10 and 11 to complete the row.

Note: If your thread runs short during the weaving, tie another piece of thread onto the short end. Continue weaving the beads as before—the new beads will slide over and hide the knot.

- When you get to the next to last loop of the row, add three beads. Bring the thread through bead 1 of the last loop, beads 2 and 3 of the last loop, and new bead 4.

- Add three beads for the last loop of the row. Bring the thread through beads 1 and 2 of the first row, and bead 3 of the last loop.

- Flip the weaving over (from left to right) so that the thread is coming out of the bottom of the right side. See above. Repeat steps 7-11 and add a third row to the bracelet.

- After the last loop of the third row, tie a secure double knot and cut off the excess thread. Bring a small piece of excess thread through the middle bead of one end of the bracelet. Tie both ends of the thread to one half of the clasp. Bring another piece of thread through the middle bead on the other end of the bracelet and tie both ends to the other half of the clasp.
