

CITRUMELON™ L-Citrulline is a non-essential amino acid that promotes energy, assists the immune system, reduces muscle fatigue, and helps maintain acid base balance in the body. When muscles become fatigued, lactic acid begins to build up, resulting in that familiar "burn." L-Citrulline helps break down the lactic acid while at the same time assisting the body in eliminating harmful ammonia through the urea cycle.*

DIRECTIONS: As a dietary supplement, take one tablet daily.

WARNING: Please consult your healthcare practitioner before taking any dietary supplement. Keep out of reach of children. Do not use if outer bottle seal is missing, torn or damaged in any way.
