

## THE NEXT GENERATION IN WIRE-O® TABLETOP FINISHING CONVENIENCE

Mid-volume Wire-O® document finishing just got easier and more affordable. James Burn is proud to introduce the **PB3300 Electric Tabletop Wire-O® Finisher** - the next generation in Wire-O® tabletop Punch & Bind machines. Designed by Lhermite®, the PB3300 offers standard features that truly put it in a class by itself, including: a heavy-duty

### ELECTRIC TABLETOP WIRE-O® FINISHER

electric PUNCH; Wire-O® INSERTER; and electric Wire-O® CLOSER - all in one attractive, compact tabletop unit.

PB3300

## POWERFUL ELECTRIC PUNCH WITH ELECTRIC WIRE-O® CLOSER

This versatile electric punch with electric closer is simple to operate and finishes Wire-O® documents from 2 to 210 sheets, up to a 13" bound edge. The powerful electric punch handles up to 25 sheets per lift, with fast and easy die changeover; the unique built-in Wire-O® holder allows time-saving punch & hang insertion; and the electric closer speeds productivity and guarantees a consistent finish - all with "hands-free" foot pedal operation. Perfect for the office, in-plant reproduction center, or commercial print-for-profit where Wire-O® volumes do not justify higher-cost automation.

# PB3300

## ELECTRIC TABLETOP WIRE-O® FINISHER

### FEATURES & BENEFITS

Electrically punch up to 25 sheets and insert on efficient built-in Wire-O® holder

Electric closer with tilted table and jaws for optimum document positioning

All-new punch die design for fast and easy die tool changes.

- ☒ Versatile Finishes all Wire-O® books from 2 to 210 sheets (20# Bond) on a bound edge up to 13" wide.
- ☒ Easy to Use Electrically punch, then hang sheets on built-in Wire-O® holder for easy document insertion. Electrically close Wire-O® sizes up to 1-1/4", with "hands-free" foot pedal operation. No special training or personnel required.
- ☒ Efficient Heavy-duty steel dies punch up to 25 sheets of 20# bond in a single stroke. Punch more pages in less time than other tabletop units.
- ☒ Accurate Tilted closing table and jaws for optimum document positioning.
- ☒ Adaptable Easily adjusts for different Wire-O® sizes.
- ☒ Convenient Built-in book thickness gauge for accurate Wire-O® size selection.
- ☒ Punch Tools 3:1" & 2:1" round or square hole Wire-O® punch dies available from stock. Other dies available for plastic comb or plastic coil finishing.
- ☒ Die Changeovers Fast & simple - punch dies slide in and lock in place in less than 1 minute.
- ☒ Retractable Punch Pins To allow for standard Wire-O® formats.
- ☒ Tool Storage Built-in spare die storage to ensure punch tools are always available and protected.
- ☒ Safety Anti-pinch photo cell prevents inadvertent punching and closing cycles.
- ☒ Reversing Switch For quick release of paper jams.
- ☒ Installation Small footprint tabletop model allows easy machine placement wherever it's needed.
- ☒ Voltage Requirements 115V / 15A / 60 Hz / Single Phase
- ☒ Dimensions 13-3/4"H x 17-3/4"W x 26-5/8"D
- ☒ Weight 77 lbs. unpacked
