Lapbook #2 of 2 Lessons 7-14

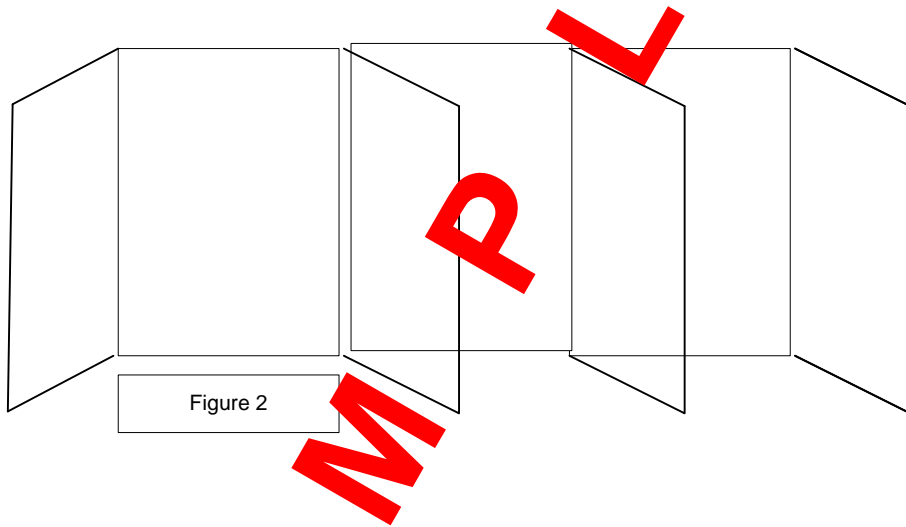

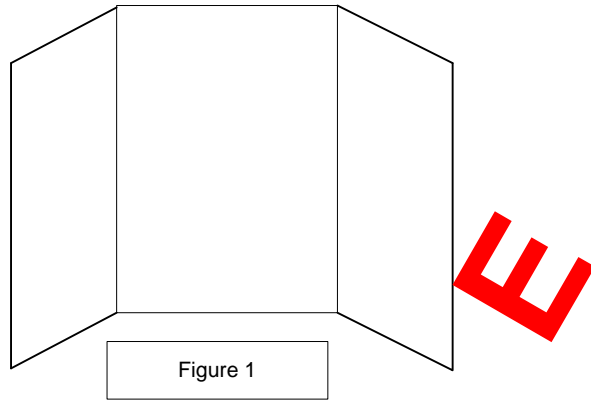

Welcome to our
Flying Creatures of the Fifth Day
(Lessons 7 – 14) Lapbook.
This lapbook has been specifically
designed for use with the book,
“Exploring Creation with Zoology 1:
Flying Creatures of the Fifth Day”
by Jeannie Fulbright and Apologia Science.

This lapbook covers Lessons 7 – 14, and
lessons 1 – 6 are covered in a separate lapbook.

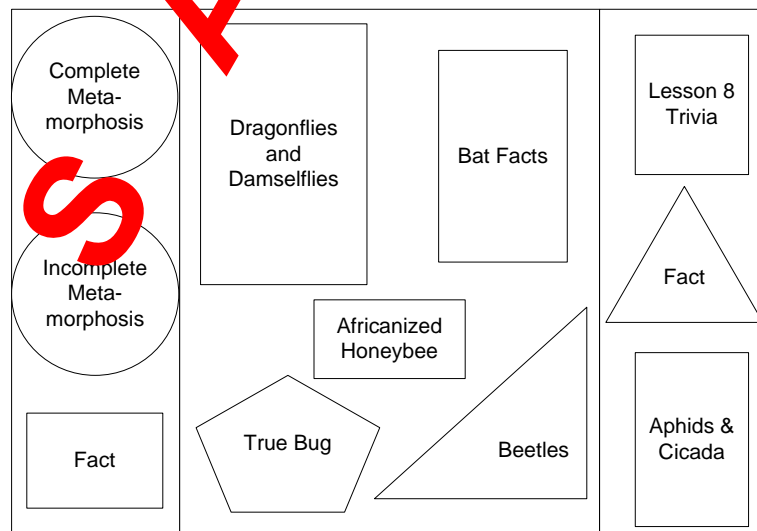

However, it could be used with other
studies of these amazing creatures.

You will need 3 folders of any color. Take each one and fold both sides toward the original middle fold and make firm creases on these folds (Figure 1). Then glue (and staple if needed) the backs of the small flaps together (Figure 2).

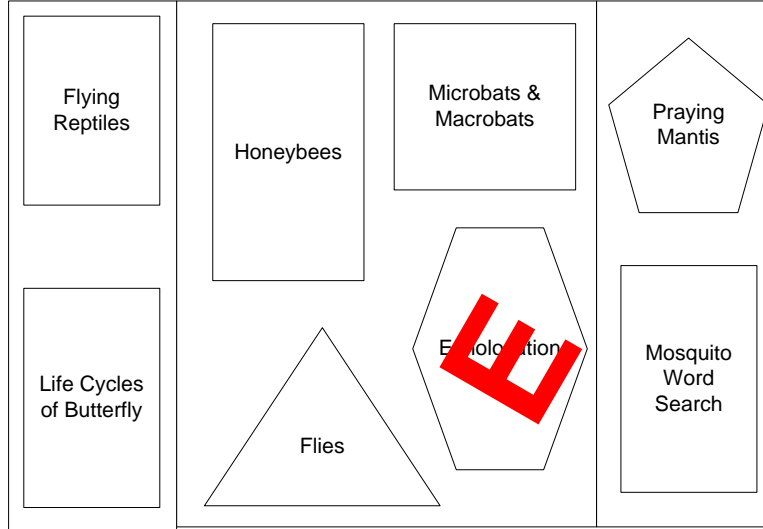

This is the "Layout" for your lapbook. The shapes are not exact on the layout, but you will get the idea of where each booklet should go inside your lapbook.

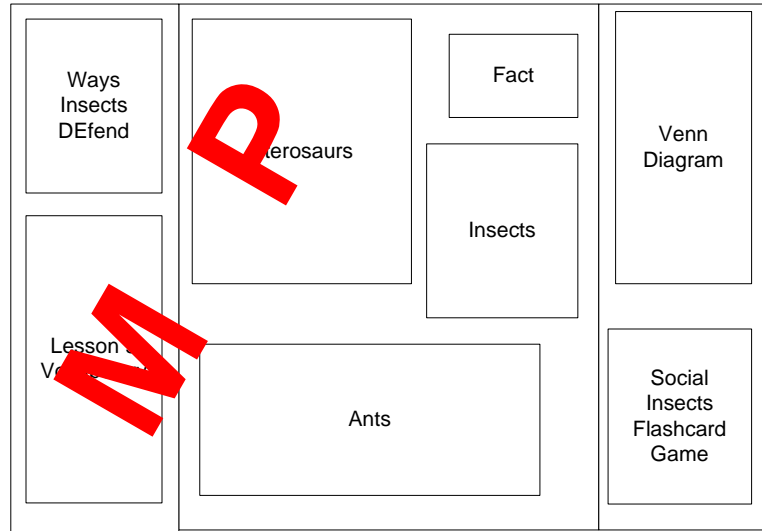

Inside of 1st Folder:

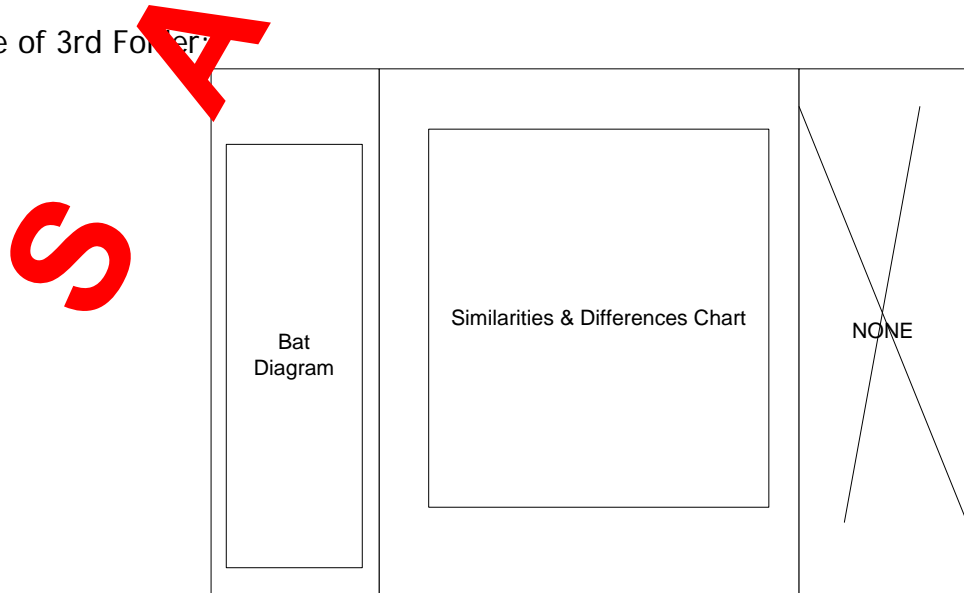

Inside of 2nd Folder:

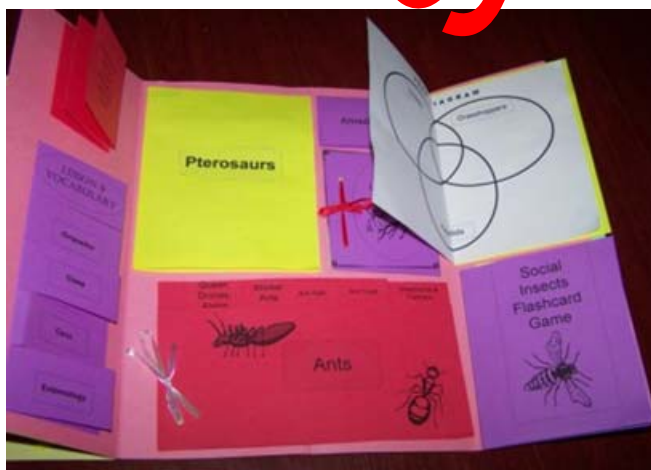

Inside of 3rd Folder:

Outside of 3rd Folder:

We have added pictures of a completed lapbook!!!
 This should help in figuring out how to assemble
 the booklets and then how to put it all together!

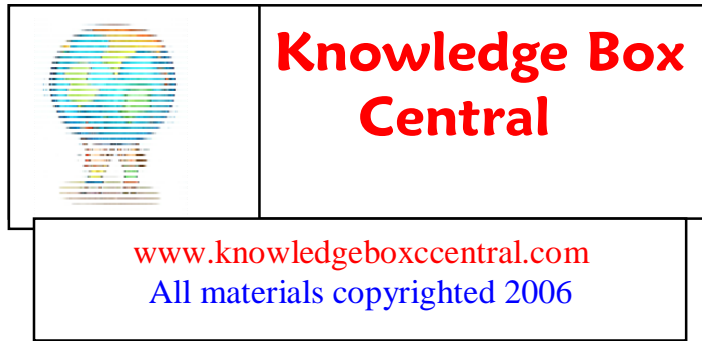

Following are the "Assembly Instructions," "Student Instructions," and "Teacher's Guide" for Lesson 7 ONLY.

This lapbook includes a BLACK AND WHITE GRAPHICS VERSION as well as a COLOR GRAPHICS VERSION. Within this SAMPLE, we have included the black and white version only.

At Knowledge Box Central, we prefer that the booklets be printed from the black and white graphics version and on brightly colored paper. However, you certainly may choose to print the color graphics version on white paper.

Flying Creatures of the Fifth Day
Lessons 7 - 14
Lapbook Assembly Guide

Lesson 7:

1. Microbats & Macro bats Booklet: Cut out along the outer black line edges. Then, fold along the horizontal line, so that the words are on the outside. Now, cut along the line that runs between the 2 words, but only up to the fold.
2. Bat Echolocation Booklet: Cut out along the outer black line edges of each page. Stack together, with the title on top and the verse and blank pages following. Punch 2 holes along the top, and secure with ribbon or metal brad fasteners. Remember, bats hang upside down, so this booklet will be “upside down.”
3. Bats Booklet: This booklet is meant to be printed out as “double-sided.” If you are unable to print it this way, then just glue the 2 pages together. Cut out along the outer black line edges. Tri-fold the booklet, so that the title is on the front.
4. Label the Bat Booklet: Cut out along the outer black line edges. Glue to a slightly larger piece of paper of a different color, creating a small border.

Flying Creatures of the Fifth Day *Lessons 7 – 14 Lapbook* **Student Instruction Guide**

Decorate the outside/ cover of your lapbook. The cover of your lapbook has purposely been left blank so that your child may decorate it in any style he or she chooses. Your child may draw, paint, glue pictures, etc. You may print coloring sheets suggested on the *Tapestry of Grace* web site and glue them to the front. The ideas for the front cover are endless. Choose a topic or art project from this unit and HAVE FUN making it your own personalized lapbook!

Lesson 7:

- Microbats & Macrobat Booklet: Have you ever seen a bat? Was it a microbat or a macrobat? What are the differences? Write about them here. You may want to draw or glue pictures.
- Echolocation Booklet: Can bats hear? What is their special type of hearing, and how does it confirm creation? Answer these questions here.
- Bat Facts Booklet: Bats are very interesting creatures. See if you can answer these questions about their unique characteristics.
- Bat Anatomy Booklet: Do you know all of the parts of a bat? Did you know they even have thumbs??? Label this bat.

Flying Creatures of the Fifth Day
Lessons 7 – 14 Lapbook
Teacher's Guide

Here, you'll find information to supplement your study. Jeannie Fulbright's book is so wonderfully filled with knowledge and wisdom. All of the information needed to complete all of the booklets can be found on the pages of her book. Below, I will tell you which pages hold specific "answers." Also, you'll find many other sites listed, where you may want to go for extra information, coloring pages, games, crafts, and ideas to extend your study.

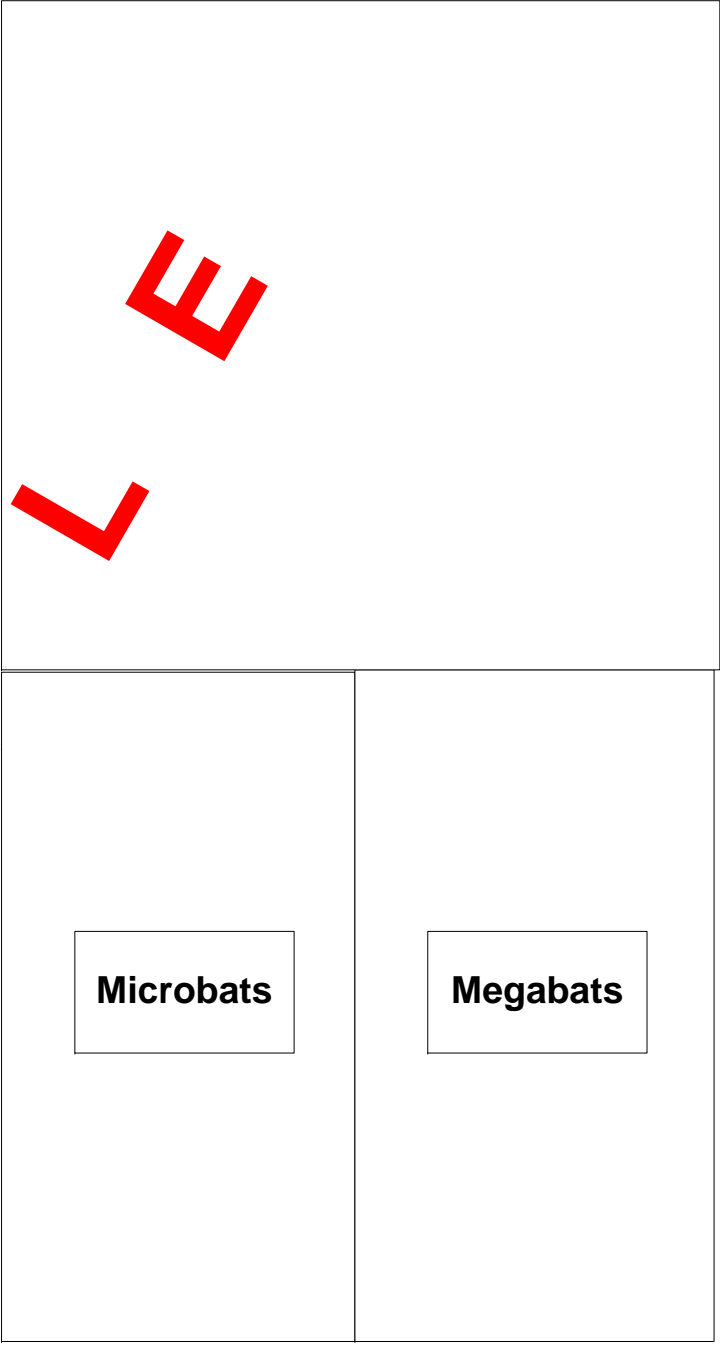

Lesson 7:

- Microbats & Macro bats Booklet: Answers found on pages 108 - 111
- Echolocation Booklet: Answers found on pages 106 - 107
- Bat Facts Booklet: Answers found throughout this chapter
- Bat Anatomy Booklet: Answers found on pages 104 - 105

Additional Resources for Lesson 7:
