

中国医药外包指南

Guide to Pharmaceutical Outsourcing in China

**A Handbook for Pharmaceutical and Biotechnology Companies
Planning to Outsource to China**

By Jim J. Zhang, Ph.D.

February, 2008

Table of Contents

Executive Summary

Chapter 1. Global Pharmaceutical Industry Experiencing Extraordinary Pressures

Chapter 2. Necessity of Pharmaceutical Outsourcing and Emerging of Asian Countries as Favored Places

- 2.1 A brief description of drug discovery, development and manufacturing process
- 2.2 Driving forces for outsourcing: to reduce cost and gain access to alternative resources
- 2.3 Emerging of Asian countries as favored places for pharmaceutical outsourcing
- 2.4 Summary of necessity, benefits and current development trend of pharmaceutical outsourcing

Chapter 3. Comparisons between China and India in Pharmaceutical Outsourcing

- 3.1 Strengths of Indian pharmaceutical industry
- 3.2 Comparisons between Indian pharmaceutical industry and Chinese pharmaceutical industry: why is China becoming more and more favored for pharmaceutical outsourcing?
- 3.3 Where to choose a service provider: India or China?

Chapter 4. Emerging of China as a New, Favored Place for Pharmaceutical Outsourcing: Current Development Situation and Service Capability

- 4.1 Changes in the structure of Chinese pharmaceutical industry
- 4.2 Overall environment of pharmaceutical outsourcing in China
- 4.3 Current service capabilities of Chinese pharmaceutical outsourcing industry
 - 4.3.1 Chinese pharmaceutical outsourcing industry is backed by a strong higher education system
 - 4.3.2 Current service capability
 - 1. Service capability in early stage drug R&D
 - 2. Service capability in preclinical research
 - 3. Service capability in clinical research
 - 4. Service capability in contract manufacturing
- 4.4 Benefits of outsourcing to China

Chapter 5. IP Issue in China – An Objective Evaluation of Risks and Rewards for Outsourcing to China

- 5.1 IP protection in China: the real situation
 - 5.1.1 Actions taken by Government to correct this issue
 - 5.1.2 Chinese people have become more self-conscious about IP protection
 - 5.1.3 Positive reactions of Western companies to current situation of IP protection in China
- 5.2 Evaluation of potential risks for outsourcing to China
- 5.3 Comparisons of risks *versus* rewards for outsourcing to China
- 5.4 How to maximize rewards
 - 5.4.1 Do a self-assessment first
 - 5.4.2 Choose a CRO/CMO carefully
 - 5.4.3 Check availability of internal resources
 - 5.4.4 Bring Western standard at the very beginning
 - 5.4.5 Manage your outsourced projects effectively
 - 5.4.6 Pay attention to relationship
- 5.5 Dismiss fears of outsourcing drug R&D to China

Chapter 6. Right Procedures for Outsourcing to China

- 6.1 Step 1. Classifying the projects to be outsourced to China and assessing their risk tolerance level
- 6.2 Step 2. Identifying a qualified Chinese service provider whose capabilities match the requirements of your projects
 - 6.2.1 Classification of Chinese service providers according to their service capabilities
 - 6.2.2 Geographic distributions of Chinese service providers
 - 6.2.3 Factors affecting the decision of choosing a right outsourcing service provider
 - 1. Service quality
 - 2. IP protection and confidentiality commitment
 - 3. Cost
 - 4. Geographic location
 - 5. Business model
 - 6. Management
 - 6.2.4 Advices for selection of a right CRO/CMO
- 6.3 Step 3. Right approaches to a Chinese service provider
 - 6.3.1 Starting contact with potential partners
 - 6.3.2 Signing Confidential Disclosure Agreement (CDA)
 - 6.3.3 Requesting bid proposals
 - 6.3.4 Pay on-site visit to potential service providers: Facility audit
 - 6.3.5 Signing contract
- 6.4 Step 4. Effectively managing your outsourced projects
 - 6.4.1 Facilities and how an outsourced project is managed in a Chinese CRO/CMO
 - 6.4.2 How to effectively manage your outsourced projects in China
 - 6.4.3 Pay attention to establishing a good relationship

Chapter 7. Small Biotech Companies Outsourcing to China

- 7.1 Necessity of small-sized biotech companies to outsource to China
- 7.2 Advices to small-sized biotech companies planning to outsource to China
- 7.3 Steps of effectively protecting your IP rights

Chapter 8. Prediction of Future Development of Chinese Pharmaceutical Outsourcing Industry

- 8.1 Development of Western pharmaceutical outsourcing industry
- 8.2 Development of Indian Pharmaceutical outsourcing industry
- 8.3 Future development of Chinese pharmaceutical outsourcing industry

Chapter 9. Company Profile of 61 China-based, Best Outsourcing Service Providers

Appendixes

- Appendix I. About JZMed, Inc.
- Appendix II. About Author
- Appendix III. Sample CDA

Indexes

List of profiled CROs/CMOs

List of Tables

- Table 1. Layoffs recently announced by world major pharma and biotech companies
- Table 2. Pressures and requirements global pharmaceutical industry is facing
- Table 3. Representative Chinese pharmaceutical companies that provide contract manufacturing services
- Table 4. CROs/CMOs capable of conducting custom synthesis on small to medium scale (grams to kilograms)
- Table 5. CROs/CMOs capable of conducting chemical process research, development and optimization
- Table 6. CROs capable of conducting medicinal chemistry research
- Table 7. CROs capable of conducting pharmacological property study
- Table 8. CROs capable of conducting preclinical research
- Table 9. CROs/CMOs capable of conducting cGMP production on various scales (kilograms to metric tons)
- Table 10. CROs capable of conducting clinical research
- Table 11. List of China-based CMOs
- Table 12. CROs/CMOs located in Great Shanghai Area
- Table 13. CROs/CMOs located in Beijing
- Table 14. CROs/CMOs located in other cities than Great Shanghai Area and Beijing
