Electromotive Systems ELECTROBAR® FS

ELECTROBAR® FS Conductor Bar System

ELECTROBAR® FS CONDUCTOR BAR SYSTEM

Magnetek knows the safety and performance of your overhead material handling system are top priorities. That's why we proudly offer the Electromotive Systems Electrobar FS Conductor Bar System for the electrification of cranes, monorails and automated storage and retrieval systems.

UNIQUE CONDUCTOR BAR SHAPE ENHANCES PERFORMANCE

- Contoured bar design ensures electrical contact between the collector shoe and conductor bar.
- Wear to the conductor bar cover is minimized.
- Potential loss of electrical contact at the joints is significantly reduced.
- Rigid conductor bar design minimizes deflection between hangers.

EASY TO INSTALL AND MAINTAIN

- Modular, snap-in multi-pole conductor bar hangers reduce installation and maintenance time.
- Compression-type anchors eliminate the need for field drilling.
- Expansion line elements come completely pre-assembled.
- Minimal system maintenance required—just periodically replace collector brush assemblies.
- Snap-in collector shoe assembly.

VALUE-PACKED SYSTEM

- Systems up to 490 feet in length can be installed without expansion assemblies.
- Standard 15' bar lengths mean fewer joints to purchase. (Custom lengths available by request).
- Common hangers and joint assemblies allow for reduced inventory levels.
- System design reduces installation labor costs.

DESIGNED WITH SAFETY IN MIND

- Finger safe design minimizes potential for electrical contact.
- Grounding conductor bar available with green cover for ease of identification.

AVAILABLE IN A VARIETY OF CONFIGURATIONS

- Single and double shoe collector assemblies.
- 90, 110, 125, 250 and 400 Amp ratings.
- Snap-in hanger kits available for 2, 3 and 4 pole applications.
- Single hangers also available for special configurations.
- Single or tandem pantograph style collectors.
- Can be used in horizontal or vertical mounted applications.

Our standard Electrobar FS Conductor Bar comes in 15' lengths, so there are fewer joints to purchase and installation time is reduced!	4. Power Feeds	6
5 there are fewer joints to purchase and installation time is reduced!	5. End Cover	6

Systems may be installed up to 490' without expansion assemblies, and in operating environments up to 160 degrees Fahrenheit. We include a green PVC conductor bar cover to provide electrical protection and easy identification of the grounding conductor.

7. Expansions (not shown)	4
8. Transfer Cap (not shown)	6
9. Collectors (not shown)	7

Note: It is permissible to use the smallest rated bar as the ground. Example: 90, 110, 125 Amp Electrobar FS System - use the 90 Amp FS Bar as the ground.

ELECTROBAR FS GALVANIZED STEEL LINE ELEMENTS

	Standard		Weight	
Catalog Number	Description	Length	Lbs.	Kgs.
FS-90P15	90 Amp Electrobar FS Phase (Orange)	15' – 0"	7.4	3.4
FS-110P15	110 Amp Electrobar FS Phase (Orange)	15' – 0"	9.0	4.0
FS-125P15	125 Amp Electrobar FS Phase (Orange)	15' – 0"	9.0	4.0
FS-90G15	90 Amp Electrobar FS Ground (Green)	15' – 0"	7.4	3.4
FS-110G15	110 Amp Electrobar FS Ground (Green)	15' – 0"	9.0	4.0
FS-125G15	125 Amp Electrobar FS Ground (Green)	15' – 0"	9.0	4.0

Special length line elements are available from 1' to 14' in 1' increments designated by FS-(Amp Rating) (Phase or Ground) X, where X is equal to the length in feet. **Example:** FS-90P5 is a 90 Amp Electrobar FS Phase X 5'-0".

1. ELECTROBAR FS COPPER LINE ELEMENTS

		Standard	Weight	
Catalog Number	Description	Length	Lbs.	Kgs.
FS-250P15	250 Amp Electrobar FS Phase (Orange)	15′ — 0″	7.5	3.4
FS-400P15	400 Amp Electrobar FS Phase (Orange)	15′ — 0″	10.0	4.5
FS-250G15	250 Amp Electrobar FS Phase (Green)	15′ — 0″	7.5	3.4
FS-400G15	400 Amp Electrobar FS Ground (Green)	15′ — 0″	10.0	4.5

Special length line elements are available from 1' to 14' in 1' increments designated by FS-(Amp Rating) (Phase or Ground)X, where X is equal to the length in feet. Example: FS-250P5 is a 250 Amp Electrobar FS Phase X 5'-0".

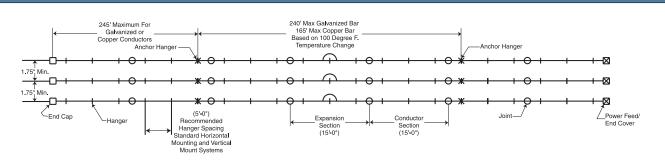

EXPANSION ELEMENTS

Our standard Electrobar FS expansion elements come in 15' lengths and include our PVC conductor bar cover and power feed covers. Expansions are completely pre-assembled, requiring only proper gap setting by the installer (refer to technical bulletin for gap setting data). Expansions may be installed in operating environments up to 160 degrees Fahrenheit.

HANGERS

Electrobar FS multi-pole line element hangers have a modular, snap-in design for quick installation and ease of maintenance. Compression anchors are available, eliminating the need for drilling.

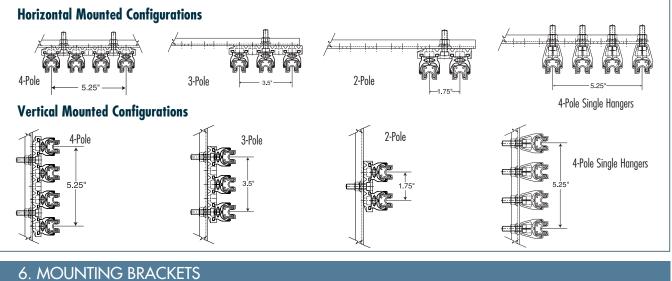

A variety of configurations are available:

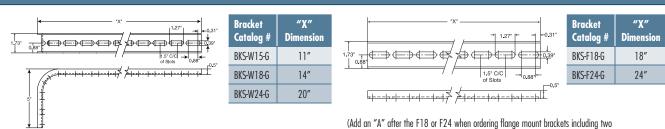

- Horizontal mount
- Vertical mount
- Modular hanger base for 2, 3 and 4 pole configurations
- Single plastic and steel hangers for special applications

COLLECTOR ASSEMBLIES

Collector assemblies are designed to travel at speeds up to 900 ft. per minute using standardized components. They provide constant spring force throughout the entire stroke due to the parallelogram effect between the arm and the spring. Electrobar FS collectors feature a snap-in shoe assembly—simply make the electrical connection and snap the shoe into place. Our graphite impregnated copper contact shoes are designed for long life and minimal drag. Standard Electrobar FS collectors have a 100 and 200 Amperes continuous current rating. Single or tandem collector shoe assemblies are available.
