## **Bolinas Solar Measurement Company Expands**

### **Solmetric Corporation Adds New Hires to Address Strategic Areas**

BOLINAS Calif. (March 19, 2007) – Solmetric Corporation, a manufacturer of solar test and measurement equipment, has expanded in the first quarter of 2007. In order to address existing demand and develop new markets, Solmetric has added five new hires in the areas of Research & Development, manufacturing, and regulatory affairs.

"These hires are strategic additions to Solmetric's team," says President Willard MacDonald. "Each of these outstanding new additions address important areas in our continued growth as the leader in solar test and measurement."

#### About Solmetric Corporation:

Measurement tools from Solmetric Corporation enable professionals in the solar installation and architecture industries to effectively evaluate the solar potential of a site. Solmetric tools are designed for ease of use, accuracy, and robust reporting that allows professionals to focus on their customers. Solmetric is the industry expert in on-site solar access analysis.
