

Dear Teacher,

Thank you for purchasing this product from [Teacher Tam's Toolbox!](#) Be sure to look for other items from our product list!

DIRECTIONS FOR BOOK ASSEMBLY

Each book consists of 12 pages of print for the child, but only 4 pages to copy. Print book pages 1 and 2, then print pages 3 and 4 on the back. So, 1 and 3 should be back-to-back and 2 and 4 should be back-to-back. Cut the pages on the horizontal line, put in order, staple on the center line, and fold.

Available items are:

- **Teacher Tam's Beginning Readers**
Phonics-based E-Books for Beginning and Emergent Readers
3 Sets of 10 Books each
Set 1: Focuses on CVC words and beginning sight words, preschool/kindergarten level
Set 2: Reviews skills from set 1 and adds blends/digraphs, and harder sight words, kindergarten/first grade level
Set 3: Reviews skills from sets 1 and 2 and adds long vowels, first grade level
- **Teacher Tam's Reading Games for preschool to first grade**
The games can be adjusted to accommodate various skill levels because most come with blank game boards and/or blank game cards.
Making Words—A card game where students match an initial consonant with an ending to form various three-letter words
Sight Word Matching—A matching game where the cards have sight words
Letter Sound Games—A set of 6 games where students sort picture cards according to beginning letter sounds
The Path to Reading—A board game where students must name words beginning with the consonant they land on

Hop to It! Reading—Students must think of words beginning with various blends and digraphs

Zoom!—A game with three levels of cards to read which uses die cast cars for additional fun!

- **Teacher Tam's Math Games for preschool to first grade**

The games can be adjusted to accommodate various skill levels because most come with blank game boards and/or blank game cards.

Addition Journey—An addition game with game boards

Count, Count, Count—A counting and estimation game

Finish My Pattern—A pattern game using unifix cubes

Hop to It! Math—A subtraction board game

Mitten Match—A matching game using the “count on” strategy of addition

Name That Number—A number identification game using cards

Roll With It!—A graphing and probability game

Sharks and Minnows Math—An addition game with cards

Sort it Out!—A game which has students sort objects

Subtraction Tic-Tac-Toe—Students practice subtraction skills

Where is that Number?—A number identification and place value game using cards

All of the materials were created for my own classroom. They are appropriate for use in preschool through first grade. There are short, phonics-based books with simple pictures to help students focus on decoding words. You will also find reading and math games that provide students with extra basic skills practice. Using the books, reading, and math games in my classroom has certainly made my students more successful. I hope that you can use the materials to help your own students succeed.

Have a great school year!
