

1. Please provide the best measurements of Measurement **A** and **B** that you can.
2. If there are objects located in the middle area of the garage or area you are trying to cover, we will need measurements of objects as shown in measurement **C** and **D**.
3. Also provide us with measurement from the object to the wall as seen in E1, E2, E3, E4.
4. The area that you are working with may not be square like the diagram that you are looking at. Please provide a measurement for each part of your floor so we can correctly design your floor plan.
5. If an object is present in the middle area of the garage, please provide further

Please put in Measurements below.

A- _____	E1- _____
B- _____	E2- _____
C- _____	E3- _____
D- _____	E4- _____
