**A. EchoMop Looped End Wet Head**

The first mop head made from recycled PET plastic bottles, contributing to reduced landfill waste, energy consumption and impact on greenhouse gases. EarthSpun® fibers are manufactured from 30% post-consumer PET plastic bottles. Longer-lasting, lower-linting mop head offers 20% better performance than competitive all-synthetic wet mop yarns. Absorbs more than 4.4 times its weight in water and releases almost 30% upon wringing. Washable and fast drying. Dries quickly—90% dry after only the spin cycle of the washer; air dries 100% overnight. Wide 5" mesh headband works with clamp, quick-change or jaws mate handles (sold separately). ♻️
