Scents-ible idea: New hanger cover helps keep clothes odor-free

It's called a FRESHhanger Cover, and it helps deodorize clothes and maximize their usable life, saving money, time and hassle. You simply hang the cover on any clothes hanger and let FRESHhanger's activated-carbon technology do the work. It absorbs chemical odors, smoke chlorine residue and damp mustiness by 88% in just 4 hours, according to the press release. Which is more than six times more effective than simply airing out clothing.

FRESHhanger is fragrance-free and effective for six months. It also deodorizes and dehumidifies the entire closet. Cost is \$14.99 per pack of five, available from www.freshhanger.com or 1-866-530-6580.
