
Hanger cover is fresh idea

Published on Saturday, May 02, 2009

No need to put up with stinky clothes just to save money on dry cleaning. A new hanger cover helps eliminate odors when you're airing your clothes.

FRESHhanger covers contain activated carbon, which absorbs odor from perspiration, smoke, food and other sources. The carbon also helps freshen the entire closet, the company says.

The covers fit any standard clothes hanger and last about six months.

FRESHhangers can be ordered online at <http://www.freshhanger.com>. The covers range in price from \$14.99 for a pack of five to \$39.99 for a 20-pack, plus shipping.
