FRESHhanger

[FRESHhanger](#) is an amazing new product to help reduce the price of dry cleaning. I have been using [FRESHhanger](#) for about a month and I have been very pleased with them.

All of my casual and dress jackets go on these. I honestly don't think I could live without them since I have had the opportunity to try them. It's nice to pull a jacket off the hanger and have it smell as fresh as it did before it was worn.

[FRESHhanger](#) absorbs odor by 88% in just 4 hours. It is capable of doing this because it is made with Natural activated carbon material. This is the most absorbent material in the world. [FRESHhanger](#) also fits great on all hanger sizes and is effective for up to 6 months.

I am sure that some people are curious about fragrance since it does remove odor. [FRESHhanger](#) is odor free, so it isn't just masking the odors, it is actually removing them.

Timely Environmental Story

- FRESHhanger absorbs PERC used by dry cleaners
- FRESHhanger uses 100% natural activated carbon
- using FRESHhanger saves water and electricity and also extends clothing life by reducing the need to frequently wash clothes.
