FRESHhanger Review :

Don't you just hate it when summer/winter rolls around and you dig the appropriate clothing out of the back of your closet and have to re-wash them even though they are still clean because of the stale/musky smell? Yeah, well me too but I think I may have found the solution we all need: FRESHhanger!!!

We were sent a 5-pack of FRESHhanger to review in our home. Now some of you may not know but we lived with my parents a few months before moving into the home we now live in and as much as I hate to admit it my father smokes and smokes quite a bit (although we are trying to encourage him to quit) so you can imagine the smokey smell on all of our clothing. I had planned on washing all of them but I just couldn't justify using that much water to clean clothes that had already been washed so when I got the opportunity to try out FRESHhanger I as thrilled.

Once we received the FRESHhanger set I we to work putting them up in our closets, let me tell you they are super easy and quick to put on all you do is slip it down over your regular hangers! I used them with both wire hangers and plastic hangers and I had no problem putting them on either. With in a few days I had noticed the smell of cigarette smoke was not nearly as strong and I rotated the clothing on the shangers every other day and it has made an amazing difference and kept me from having to rewash all of our clothing, now with only 5 hangers it's impossible to remove all of the smell and muskiness out of the closet but as we wear and wash the clothing it will eventually be smell free and with FRESHhanger I can keep it that way!!!

FRESHhanger recommends changing your FRESHhanger every six months to new ones and with their prices it's a very small investment to make to keep your clothing and closets smelling nice and fresh!! My husband and I have discussed it and are planning on purchasing more of these for his work clothing, because with him being a mechanic and all the grease and gas he gets on him in a single days work it really doesn't matter how much we wash/soak and repeat his work uniforms are still very stinky but with the FRESHhanger it's really made a difference to us!!

Over all we are very pleased with the results we have gotten with FRESHhanger and will continue to purchase and use them! I also recommend you check them out for yourself if you need a little fresh added to your closets.
