FRESHhanger

The FRESHhanger is a flexible cover you can slip onto hangers to absorb clothing and closet odors.

First came at-home dry-cleaning kits, an inexpensive and convenient way to freshen clothes between trips to the professional cleaners. Now Ideal Home Innovations has introduced the FRESHhanger, a flexible cover you can slip onto hangers to absorb clothing and closet odors. The cover features a natural, activated carbon that the makers say will last up to six months. A pack of five retails for \$14.99 at www.freshhanger.com.
