**Magnetic Bracelets for the sports enthusiast...  
with a 60-DAY RETURN POLICY.  
You can shop with confidence!**

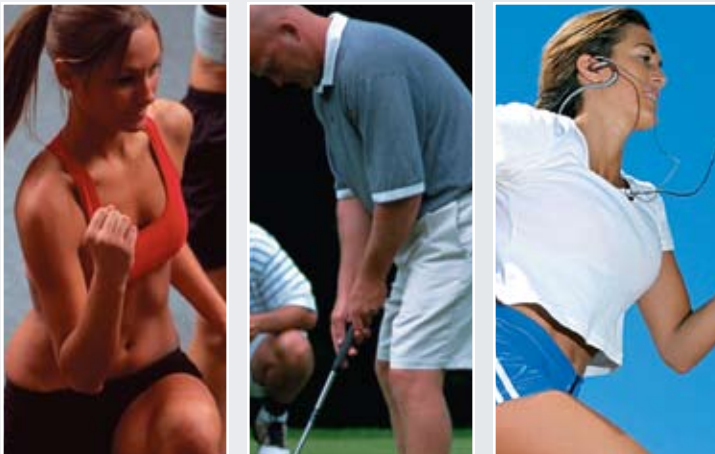

Magnetic bracelets, copper bracelets and magnetic jewelry have a long history of use by many famous and not so famous people, such as the ancient Greeks to the "king" himself, Mr. Arnold Palmer. We surmise that many people you know have purchased and worn a magnetic bracelet at one time or another. Many professional athletes, as well as "weekend warriors," feel a magnetic or copper bracelet gives them the "edge" that they need to maximize performance. Other people simply enjoy the comforting effect that they perceive in wearing a magnetic or copper bracelet. Still others feel more calm and relaxed in mind and spirit with a magnetic or copper bracelet on their wrists. At AceMagnetics.com, we strive to provide you with a great looking piece of magnetic jewelry, at a fair price, with our "no questions asked" 60-day money back guarantee, plain and simple. We believe you would be hard-pressed to find more competitively-priced, attractive, and quality-made magnetic jewelry anywhere. Remember with any \$75.00 purchase, you will be prompted at check-out (online) to select a free cable style magnetic bracelet, it's a good deal. Rest assured that your bracelet will look great or will make a great gift for a loved one.

All AceMagnetics.com bracelets are embedded with powerful 3000 to 3800 gauss laser-point/neodymium/north-facing unipole magnets in every link that are permanent – they will not lose their strength!

# COPPER BRACELETS

AceMagnetics copper wristbands are 99% pure copper, no lead. Rockwell tested to a 54 tinsel strength capacity – What does this mean? A sturdy metal that is still pliable, not flimsy, and able to endure rigorous daily activity. Remember...copper will turn your wrist slightly green - this can easily be washed off with soap and water.

## What is Gauss?

Gauss is a unit of measurement used to describe both the coercivity of a magnet and its saturation magnetization. Basically, it describes how strong the magnetic fields are extending from the magnet and how strong of a magnetic field it would take to de-magnetize the magnet. The name comes from the mathematician physicist Carl Freidrich Gauss.

# TITANIUM BRACELETS

Three times stronger than stainless steel yet one third the weight embedded with 3300 gauss neodymium, north facing, permanent laser point magnets in every link. Titanium doesn't irritate even the most sensitive skin. Titanium is completely inert, not alloyed with anything such as copper or nickel. It is used widely in the medical field to replace heart valves, hips, dental implants, etc. Titanium will not discolor your skin and will not harm the body in any way. A titanium magnetic bracelet may long outlive the wearer.

Feel better, look better, and play better! This is the mantra you hear by an overwhelming majority of Japanese baseball players that have experimented with similar products. Asia has a way of starting things that many years later the rest of the world only begins to comprehend. Acupuncture took thousands of years for the West to grasp, but we thought these titanium and tourmaline bracelets might be worth considering a bit sooner.

### Magnetic Hematite Necklace and Earring Set

Our handcrafted 36" strand of magnetic hematite jewelry offers a wide variety of color such as white hematite faux pearls that are "real" neodymium iron boron, black crystals and incredibly minute and individually hand painted multi-colored beads that make for some very enjoyable mixing and matching. Because the magnetic hematite clings to hold this single strand together it needs no clasp so you can wear this as a bracelet, anklet, necklace or ornamental hair tie. We have not sacrificed strength for beauty as each strand of this wonderful magnetic hematite jewelry has thirty five neodymium iron boron hematite magnets at 1300 gauss each; the magnets will not lose their strength like cheap imitations.

*Style of free bracelet may vary with availability.*

There are no set rules for wearing your AceMagnetics bracelet. It's a versatile piece of jewelry that can be worn 24/7, or modified to fit your comfort and schedule.

**Caring for link bracelets:**

The link bracelets can be worn at all times. They can get wet – you can shower or go swimming with them on. No care is required to maintain their beautiful finish. Simply treat your bracelet or necklace as a fine piece of jewelry and they will wear like new.

**Care for your copper wristband:**

Every three months clean the inside of your copper wristband with soap and water. You can wear the wristband in the shower and you can go swimming with the wristband on – no problem. We recommend letting the outside fade to its natural copper color.

**Sizing for link style bracelet:**

AceMagnetics.com link style bracelets should be worn like a fine piece of jewelry. The bracelet should lay comfortably around your wrist, not too loose – not too tight.

Simply measure your wrist and get the next larger size closest to your wrist size. For example if your wrist is 7 inches - get the medium or 7-1/2 inch bracelet.

Copper wrist bands are designed to fit snug, but not tight, around the wrist. A 1/2" gap should be left between the ends of the band. Determine the size of bracelet you need by measuring your wrist. For Example: Your wrist measures 7 inches around, you will wear a large bracelet.
