COLORED CORK PANELS

- Renew or replace any torn or worn board with Colored Cork Panels, made with colorful and durable Forbo® linoleum, produced from natural and renewable raw materials.
- A combination of oxidized linseed oil, rosin and finely ground cork gives this board its flexibility and resilience. This combination results in a product with exceptional durability and a sustainable footprint.
- The natural self-sanitizing quality of linoleum inhibits contaminants for a low maintenance board. The surface does not attract dust and has bacteriostatic properties. This makes it a practical solution in classrooms and a hygienic choice in healthcare environments.
- Surface is self-healing and colored throughout to ensure colorfastness and eliminate fading. The board material retains its grip and doesn't crumble like traditional soft boards as the tack holes close after extraction of the pins.
- Panels are made with ¼" thick Colored Cork permanently adhered to a ¼" thick layer of durable and moisture-resistant MDF.
- Manufactured in the US of foreign and domestic materials. Ten year limited warranty.
- Has achieved GREENGUARD GOLD Certification.
