SHAREWALL

- With Sharewall® you have an endless array of options for mounting styles and configurations, from horizontal, vertical, railroad, framed and unframed, to suit your space.
- Unlike paints and films, Sharewall® is engineered from a magnetic PV porcelain coated steel for the ultimate in flexibility. It is mountable on pillars and curved walls, and on a variety of surfaces.
- Sharewall® can be butted together for nearly invisible seams in any location.
- The surface is durable, and will erase cleanly, even after heavy use. Other markerboard surfaces can become stained with frequent use over a short period and can be difficult to clean.
- Available in gloss white or matte gray for an enhanced projection clarity and minimized glare.
- Sharewall® emits virtually no VOCs for improved indoor air quality.
- Trim options available. Simply install clips to surface and attach trim for a clean and finished appearance.
- Professional installation recommended.
- Fifty year limited warranty. Has achieved GREENGUARD GOLD Certification. Available for purchase in quantities of three or more pieces. Call for information on ordering fewer.

Trim options available. Simply install clips to surface and attach trim for a more finished appearance.
