The two Barcelona chairs I received are very high quality reproductions! The hallmarks of quality in a Barcelona chair are: - overall proportions are correct (essentially 30" cube) - the cushions are not too thick - the back edge of the cushions are correctly angled for the frame - cushions have seamless front and top corners - piping is in proportion with the overall piece - corners of cushions are squared and not rounded off - three leather buckles to secure the bottom cushion - zippered cushions - beautifully sanded welds on the stainless steel frame Combined with the outstanding customer service, Gibraltar Furniture delivers!

Order: 1332 Rating: Excellent Comments: Price Rating: Excellent Shipping Options Rating: Good Delivery Rating: Good Ease Of Purchase Rating: Good Customer Service Rating: Excellent Title: Body: It has been about a week since my new Noguchi coffee table arrived. After much research online, I decided to make the purchase and couldn't be happier. Their customer service is nothing short of amazing. My first contact with the company was using their online chat window. After asking a few questions they offered to e-mail me some information which they did immediately. A customer service representative was always available to contact, and they kept me in communication throughout the purchasing process. After the purchase it did take a day or two for them to get me the freight company information, but I have never had any large shipment through a freight company so I expect that to be normal as they worked out the shipping route. The delivery came WAY earlier than I expected. It took about a week from order to delivery at my front door. The truck driver was extremely nice, and even helped my carry my table inside. FYI - You will need two people to carry this table. It is heavy, and reflects the good quality of this product. After opening the boxes, and finding that everything was in order (like the glass top) I sighed with relief and took a moment to check out the quality. It is a very nice piece with smooth surfaces, a nice finish, and THICK. My one complaint is the menu layout on their webiste. It has way to many options, and can be difficult to navigate. For those who know what they want it is no big deal, but I want to able to easily browse for more find products from this company. Like any discerning buyer I decided to start small, and after this I will make more purchases in the near future.

Body: Purchasing the piece was easy and the price was the best I had seen online. I received the piece in
under a week which was great! My only complaint is that I was told I would be contacted by a customer
rep regarding the availability of the piece and no one called me back. other than that everything was
great.

Order: 711 Rating: Excellent Comments: Their price was excellent! Their product was back-ordered, but they did not let me know until I called them to follow up. There was no UPS code to track my order. They were very nice on the phone however. But for an online retail experience, there should have been more follow through on their part. After waiting almost 3 weeks, I may have to wait another 3-4 weeks.
