Gibraltar Furniture is EXACTLY the furniture place I've been looking for in LA. Their style is modern without being too over the top and their prices are great. Service, delivery, and support was perfect.

I previously purchased a bedroom set and love it so much that we came back to add another piece! We received such friendly service today, and it just solidifies why I continue to return here. I've received so many compliments on my bed set and people are surprised when I tell them how much I spent for the quality. I will be coming back for more!

Gibraltar Furniture has Great prices and amazing support. I would recommend using Gibraltar if you are looking for killer prices and perfect designer furniture The staff here is very friendly and helpful; They are neither pretentious nor snobby like their counterparts on Beverly and most high end furniture stores. I bought an Eames Lounge

Chair from Gibraltar in Beverly Hills. The salesperson who worked with me, Bradley, was a design expert and really helped me make the best choice. He provided outstanding customer service and I would absolutely work with him again. I will be coming back for more.

Gibraltar is Furniture nirvana for wholesale shoppers looking for great price and sublime service. We were blown away by the service, quality, and discount prices, Gibraltar Furniture has excellent selection, fair pricing, perfect. There's a prodigious selection of sofas, chairs, tables etc. The designs are pretty matchless. Spent quite a few minutes browsing and enjoying what the store had to offer. We were blown away by all of the various colors and shapes. We found out that we saved about 75% off of list vs. similar branded products from DWR.

Gibraltar Furniture is a world class modern furniture store with amazing prices, incredible customer support, and top notch office, home, and studio products. I a 100% very happy camper. While deciding on our purchases, my husband and I visited multiple websites. Gibraltar was the one store that actually followed up on each of our requests. The staff was amazing, super helpful and very friendly.

This is a great place to find high end furniture, at reasonable prices, such as Le

Corbusier, Gerrit Rietveld and Eames. All of the pieces are exquisite and produced with excellent materials and workmanship

We ended up buying about 20k worth of goodies for our home and office at a fraction of the prices we would pay for Herman Miller, Cassina, or Knoll branded products. And we laughed all the way to the bank!

This place rocks! Gibraltar Furniture is my secret weapon source for great discount furniture, trend setting design, and modern art icons.. After spending months comparison shopping via the Internet I was extremely pleased to find this website. Gibraltar has an extensive range of products and they sell their items at, far and away, the best prices I've yet found. I can't tell you the number of friends who's names I've passed this information onto. I can't say enough good things about store manager

Bradley Friedman. He answered all of my questions, provided me with in depth info, and e-mailed me cut sheets and pictures of everything.

Wonderful store with great prices and fantastic selection. Gibraltar Furniture is a gem that specializes in high end architectural, home, office, outdoor, and design items at factory direct rates. I recently purchased in the Los Angeles area. Below is a short summary of my experience.

I wanted my Beverly Hills home to reflect my personal style but to also include new art elements that suited the particular space and California lifestyle. I received most items within about 7 days of my initial order and also special ordered some pieces that took a couple months for delivery. My new home is the perfect balance between my personal style and the wonderful outside influence I was looking for in my new city.

I will definitely be back to Gibraltar Furniture for additional purchases. I am a happy camper

Gibraltar Furniture is a great find! It is my top source for discount wholesale furniture, architectural classics, and modern design. I found their service to be top notch. I researched other providers including Knoll, Herman Miller, and Cassina before I ended up selecting Gibraltar based on their lower price points. I want to give a big shout out to Bradley Friedman who is the store manager. He explained the difference between knock offs and reproductions clearly to me. All of our stuff arrived in perfect condition.

Plus we saved a bundle of money vs. the other stores we considered. Gibraltar's support staff was fantastic too. Could not ask for more! Highly recommend this store not only for the quality of the items but also for the amazing customer service you will receive from them and especially Bradley who assisted us on everything and made our transaction a breeze!

Service was flawless.

Gibraltar has great designs and even better prices, I have to say shopping at Gibraltar Furniture was one of the best experiences we have had since moving into our new Beverly Hills house and looking for modern furniture. All of the prices were selected are timeless classics that will both look good and last for a very long time. They truly are a worthwhile investment. Thank you for making me a very satisfied customer! As an architect, I am very picky with details. The two Barcelona chairs I received today are very high quality reproductions! And their prices cannot be beat. I paid \$995 vs. \$8540 via another supplier that I was considering. Here are my notes:

Barcelona chair are: - overall proportions are correct (essentially 30" cube) - the cushions are not too thick - the back edge of the cushions are correctly angled for the frame - cushions have seamless front and top corners.

Piping is in proportion with the overall piece - corners of cushions are squared and not rounded off

Beautifully sanded welds on the stainless steel frame Combined with the outstanding customer service, I will be coming back for more.

Great experience. This is a superstar store in my book. I am a designer and this place is Mecca. Great prices on reproductions. Plus they have wonderful deals on originals too. They have a designer program, with nice rebates that has really helped our firm . This place is for DWR customers who don't have deep pockets but want the same items, I will be pack for more soon!

THIS IS A WORLD CLASS PROVIDER! Gibraltar Furniture has the best value, selection, and service. Gibraltar prices were the lowest I have found on the web. Gibraltar has an excellent support team. Plus they offer 24/7 support. All of the product that I ordered arrived right on time. Ordering on line, and the delivery was a breeze.

Before I purchased I called the company to find out more details. I found out that Gibraltar is a 60 year old business. They are specialists in high end furniture with wholesale prices. Evidently they are a Hollywood inside secret as they provide many of the set items that you see in movies and on TV.

The owner explained that all items are shipped right from their factory to enable COSTCO like prices. The furniture that I ordered were all expertly made products. They provided me with tracking links and updated re shipping time via e-mail. Could not be happier with the experience, I will back soon for more.

I found total design bliss at Gibraltar. This store is Nirvana for shoppers that want high end product that don't have bottomless wallets. Best prices I have found on the internet by far. I located a nice \$50 mark down coupon on their site that came in handy too! I am coming back here to do my studio soon.

This is a great resource for low cost modern furniture including mid-century, classics, retro, art deco, and post modern designer interior products at discount prices. I discovered that Gibraltar sells items that are fully licensed from the official sources and also features many lower cost alternatives for customers who are looking for more cost effective approaches like me.

In the end I spent about \$25,000 on furniture at Gibraltar to furnish my entire Hollywood Hills home. The same items, with branded names, would have cost me \$100,000.

This company is a perfect site for buyers who are looking for world class furniture and great prices. I just wanted to thank Gibraltar Furniture for my Eames-style Chaise and ottoman set that arrived today. Gibraltar charged me \$1195 for the pair. I checked and the DWR site offers the originals for \$6059. The chairs look incredible, and are more

comfortable than the originals. I've ordered from them several times now and have never been disappointed; I wouldn't shop anywhere else for mid-century and modern designs. Your service was fantastic! I can't wait for my next purchase with Gibraltar. You guys are rock stars in my book!

This Beverly Hills store is nirvana for people who want designer furniture at wholesale prices. This is my new secret weapon resource for discount high end furniture! I purchased a Le Corbusier LC4 lounge reproduction for only \$799. This compares to \$4050 from companies like Hive, and DWR which sell the Cassina original. Turnaround time was 1 week and the quality was fantastic. I found their prices to be about 75% less than retail stores. The Gibraltar team provided me with great service, support, and sales. I like the fact that they are open 24 hours too!

This is a top notch store! We used Gibraltar to purchase designer furniture for our home in Beverly Hills. And we could not be happier with their service, quality, and delivery. We considered using DWR and found out that they charge full list price on all of their classic items. Everything we bought is first class. Their Italian leather really is superb and ranks right up there with Herman Miller, Knoll, and Cassina. Their customer support was fantastic. All of our questions were answered professionally. Plus they provided us with a tracking link ahead of time to help us coordinate delivery receipt. All of the items we

purchased were shipped factory direct as promised on their website. In short we ended up saving several thousand dollars.

Could not be happier with Gibraltar Furniture! After much research online, I decided to make the purchase and couldn't be happier. Their customer service is nothing short of amazing. My first contact with the company was using their online chat window. After asking a few questions they offered to e-mail me some information which they did immediately. A customer service representative was always available to contact, and they kept me in communication throughout the purchasing process. After the purchase it did take a day or two for them to get me the freight company information, but I have never had any large shipment through a freight company so I expect that to be normal as they worked out the shipping route. The delivery came WAY earlier than I expected. It took about a week from order to delivery at my front door. The truck driver was extremely nice, and even helped my carry my table inside. FYI - You will need two people to carry this table. It is heavy, and reflects the good quality of this product. After opening the boxes, and finding that everything was in order (like the glass top) I sighed with relief and took a moment to check out the quality. It is a very nice piece with smooth surfaces, a nice finish, and THICK. My one complaint is the menu layout on their website. It has way to many options, and can be difficult to navigate. For those who know what they want it is no big deal, but I want to able to easily browse for more find products from this company. Like any discerning buyer I decided to start small, and after this I will make more purchases in the near future.

My experience with Gibraltar furniture was fantastic!

Their service and attention to my specific furniture needs was unparalleled. The team at Gibraltar were extremely professional and took the time to research my order and deliver a price that was unbeatable (even with delivery, tax and customs to Canada). I would not hesitate to recommend Gibraltar furniture to anyone in North America. They took care of dealing with FedEx for the shipping and made sure that the size of couch I needed was spot on.

I will certainly be looking to do business with them again.

Gibraltar Furniture is my top secret weapon web site for buying first rate designer furniture products at wholesale prices.

I spent a lot of time on the web and this is the best resource I've found yet for obtaining original and authentic reproductions. They don't sell junk and they stand behind each purchase!

I was thinking about going with DWR. But when I got there I got sticker shock! Plus they have a much wider selection of products than DWR. In addition to reproductions, I also found scores of official licensed brands at Gibraltar for prices that knocked my socks off!

Gibraltar offers buyer protection on all items via Lloyds of London and has a hassle free return policy. I liked the customer support team. All of our questions were answered over the telephone which made shopping a breeze.

My Eames chair and table order arrived very quickly and proved to be even better than our expectations! The Gibraltar website a breeze to use. Plus it contained a plethora of important links, data, and even offered a catalog download center for each manufacture. These are features that the big boys don't even support. I am a major fan of this Beverly Hills 90210 gem!
