

BELMONT

Introducing the Belmont, HTDesign's newest home theater seat. HTdesign features *First Class Theater Seating* at coach pricing, exuding top-notch quality and far more features than any other manufacturer. The Belmont is tailored in top-grain black leather match and showcases a tried-and-true space-saver design. It features a power headrest, allowing you to easily adjust your head for an optimal viewing position. Using narrower armrests, an area of only 91" wide can accommodate a row of 3 seats yet the slim structure sacrifices neither comfort nor convenience. The seat-cushion measures a cozy 23.5", while the seatback height totals 42" for head-to-toe support. The armrests feature a deep storage compartment. These compartments can be used to store remotes and magazines or accessories, such as the block gloss swivel tray tables that come standard with each seat. The tables connect to a grommet at the end of each armrest and swivel a full 360 degrees. The seats feature LED lights in the cupholders and baserails, which can be controlled, along with the recline feature, using touch-buttons on the face of the cupholder. A convenient USB charger is built into the top of the cupholders for quick and convenient access to your devices.
