"I'm hooked! I love the strings! They felt great, great tone and most of all...they didn't break! The reason I point that out is that I play very hard and pull up (all the way) on my Floyd Rose tremolo quite a bit and the Sfarzo's never gave in!! Terry Lauderdale"

"I used to change strings after every show to avoid breakage and dull tone, but Sfarzo strings really hold up better than any guitar string I've tried," says Balbinot. "Big hollow body guitars played hard need strings that stay in tune and don't lose their twang! Sfarzo has not let me down once!"
