Zyex® Composite Violin Strings

Zyex Composite strings are crafted with a new and highly refined configuration of Zyex synthetic core material. This upgraded design allows the player to maintain better control of their tone and nuance, while maintaining an overall warm tone quality with fast break-in time and excellent pitch stability. Zyex Composite strings have a warmer sound than most other synthetic core strings, making them excellent for use on modern, brighter sounding instruments. Zyex is a registered trademark of Zyex, Inc.

KRDL	Kaplan Premium Rosin with case, light

Turn to the Planet Waves section, (pages 38-39) to see our full line of tuners, tuning forks, polishing cloths, humidity control products, and other fine accessories available for bowed instruments.

ACCESSORIES

Kaplan Solutions™ Ball End Adapter

The Kaplan Solutions Ball End Adapter allows any violin or viola string with a ball end to be used with standard hook-type fine tuners that previously required strings with loop ends. The special

design of the adapter preserves the alignment of the string into the tuner. It is small and inconspicuous, and its gold-colored finish matches all styles of violin and viola fittings. Each package contains five adapters.

Item	Description
KSAA	Kaplan Solutions Ball End Adapters

NEW! Fingerboard Appliqué

Developed by Peter Stoney to help make the instrument easier to learn, play, and enjoy, the Appliqué promotes proper finger placement using a tactile approach, allowing the player to feel the proper touch point for the note. The Appliqué is available in an "Optic" version with the touch lines colored gold, and a "Tactile" version that is solid black and nearly invisible on the fingerboard. Installs in minutes and is easily removed.

Item	Description
DFA0286	Finger Applique Optic 1/2 Violin
DFA0304	Finger Applique Optic 3/4 Violin
DFA0328	Finger Applique Optic 4/4 Violin
DFAS286	Finger Applique Tactile 1/2 Violin
