

# CRISTAL® & SOLISTE®

*"Perfect & True"*

The CRISTAL® nylon trebles and the SOLISTE® wound bass strings have continued to be a perfect match for the requirements of the solo guitarist seeking increased volume and brighter tone.

Raw materials are selected for the CRISTAL® nylon trebles with the same care as the traditional treble strings and are subjected to the same rigorous quality control standards during every level of manufacture. They are the result of applied research and although they are not rectified, they are perfectly true. Their diameter is gauged by using the most sophisticated electronics and laser technology allowing for a precision of  $\pm 0.01$ mm which guarantees their brightness and tension. The SOLISTE® wound bass strings were developed in response to the demand for a different balance in volume and tone and fit particularly well with the yellow card CRISTAL® nylon trebles. Available in two tensions, high and very high, they exhibit precise tonal qualities and are a superb choice for today's classical guitarist.

## SAVAREZ CRISTAL & SOLISTE CLASSICAL SERIES ARE AVAILABLE IN THE FOLLOWING SETS:

- 570CR** High Tension-Red Card-Cristal Nylon Trebles/Traditional Wound Basses  
(571R, 572R, 573R, 524R, 525R, 526R)
- 570CRH** High Tension-Red Card-Cristal Nylon Trebles/Polished Basses  
(571R, 572R, 573R, 524RH, 525RH, 526RH)
- 570CS** Very High Tension-Yellow Card-Cristal Nylon Trebles/Soliste Wound Basses  
(571J, 572J, 573J, 574S, 575S, 576S)
- 570CH** Very High Tension-Yellow Card-Cristal Nylon Trebles/Soliste Polished Basses  
(571J, 572J, 573J, 574H, 575H, 576H)
- 570JS** Very High Tension-Yellow Card-Rectified Nylon Trebles/Soliste Wound Basses  
(521J, 522J, 523J, 574S, 575S, 576S)
- 570CJ** Very High Tension-Yellow Card-Cristal Nylon Trebles/Traditional Wound Basses  
(571J, 572J, 573J, 524J, 525J, 526J)
