2009 NMMA
INNOVATION AWARD WINNER

Portable Pump Kit

RECHARGEABLE AND FULLY SUBMERSIBLE

The award winning Charge N' Flow pump is rechargeable, submersible, and is designed for a wide variety of applications, both onboard and ashore.

The versatility of the pump along with multiple power options makes it the ideal pump to keep on hand for any situation. Plus, with battery power and two convenient power options, it works wherever you need it

The kit comes complete with a 12 volt 280 GPH pump, eight feet of lay flat hose, spray nozzle, enclosed battery, AC battery charger, battery clip adapter, and a vehicle power adapter. It also includes a filter for use in submersible mode, or when the filter is removed, the pump can be used inline.

The Charge N' Flow pump is very compact, only 5.5 inches tall and 1.5 inches in diameter, and can handle up to 100 gallons of water on a single battery charge. When connected to a car battery, it can pump endless amounts of water!

Features and Benefits

- Pumps fresh water, sea water, diesel and anti-freeze
- Diesel refuelling and transfer
- Pumps 100 gallons per charge
- All components are enclosed in a convenient carrying case
- Three power options available - rechargeable battery, car battery clip adapter and vehicle power adapter.
