Desk/Credenza Assembly Instructions
L-Desk Assembly Instructions
(PLT2472, PLT3066, PLT3672 & PLT2448
PLTLEGD2472, PLTLEGD30, PLTLEGD36 & PLTLEGD24)

Desks or Credenza:
1.) Assemble on carpet or cardboard
to protect parts during assembly.
Assembly will require 2 people for safety.

2.) Screw in leveling glides on all frames.

3.) Next, assemble metal desk frame
by attaching the cross beam to the left
& right side legs. The bolts for the cross
beam are already in the legs. Just back
out, place beam and screw back in.

4.) Next, attach frame to desk top using
the pointed tip, self-threading wood screws included with the desk top. To
properly align, assemble upside down. Align and connect frame one side at a
time with the edge of the frame aligned
to the edge of the desktop. Use a
power screwdriver to screw in 2-1/2”
screw with washer through the frame
and securely attach to top. Proceed
to opposite leg/side and attach in same
manner.

Return Desk:
5.) If you purchased an L-desk, attach
the return desk end leg to the desktop
with the two bolts, that are taped to the
leg.

6.) The mounting bracket will already be installed on the
return desktop. Use the 1”
pointed tip, self-threading
wood screws included with
desktop to connect to main
desk.

1. Assemble upside down. Attach Center Post to the Long/Short Arms using the (A) Machine Screws provided. Use the Allen Wrench included to secure the screws.

2. Turn your desktop face down on floor. Then, place the electric lift assembly on the underside of your desktop to attach with the (B) Wood Screws provided. The screws have pointed tips to easily drill into the desktop. Use your Phillips Screwdriver or Power Screwdriver to drill your own holes.

3. Attach the Base to the Center Post by using the (D) Machine Bolts with the Allen Wrench.

4. Use the (C) Wood Screws to attach the Handset on the left or right side, under the desktop.
With a helper, turn the assembled desk right side up. Then plug into electrical outlet to use.

---

- Sensitivity of lipping anti-collision setting
- Sensitivity of descending anti-collision setting
Y11129 Steel Modesty Panel Assembly Instructions (MMP6016-SLV)

Note: Holes are not predrilled on the underside of the worksurface due to the self-threading design of the pointed tip, coarse thread wood screws provided. The four wood screws will ensure a strong hold when screwed directly into the wood.

Positioning of the modesty panel is left to the personal preference of the user. It can either be placed flush to the front edge of the desk, or, set back several inches from the front edge.

Step 1: Modesty Panel is easiest to attach when desk is upside down. Attach the two angled brackets to the modesty panel itself with the four bolts and washers provided. Screw silver caps on other side of panel once done.

Step 2: Next, measure your desktop and determine if you want your panel to overhang, be flush with, or be inset from the edge of the desktop. Line up modesty panel and mark holes where the angled bracket will attached to the underside of the desk.

Step 3: Using a screwdriver or drill, attach the bracket by screwing the pointed wood screws into underside of the desk, over the marks. Once done, with a helper turn the desk upright.
