 Shallow Cover	
 Deep Cover	

Tools Needed:

* Phillips Screwdriver or drill

PARTS LIST

Part	Qty.
	1
	2

Part	Qty.
	1

Tips:

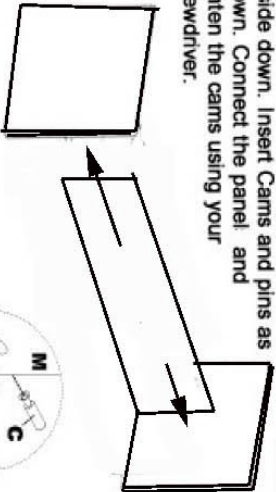

- * Assemble furniture on a carpeted area, or on cardboard, close to the area where the furniture will be in use.
- * Never drag the assembled table across the floor. Pick up and lift.
- * 2 people needed for assembly, and a 3rd person needed to help turn over table in last step

2

Step 1:
Carefully lay table top finished side down on carpet or cardboard. Insert wood dowels and pins.

Step 2:
Assemble bases, modesty panel as shown, upside down. Insert Camis and pins as shown. Connect the panel and tighten the cams using your screwdriver.

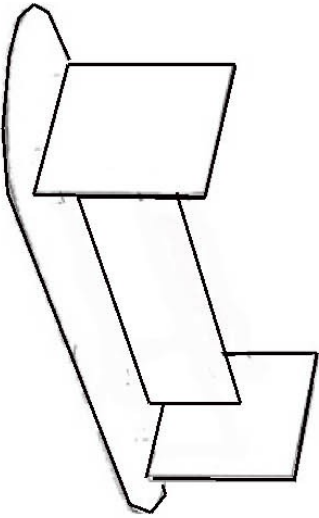

Step 3:
Screw the gliders into the inserts on each base

NOTE: The arrow on the face of the Cam (B) should point towards the Cam Pin (C) for proper alignment.

3

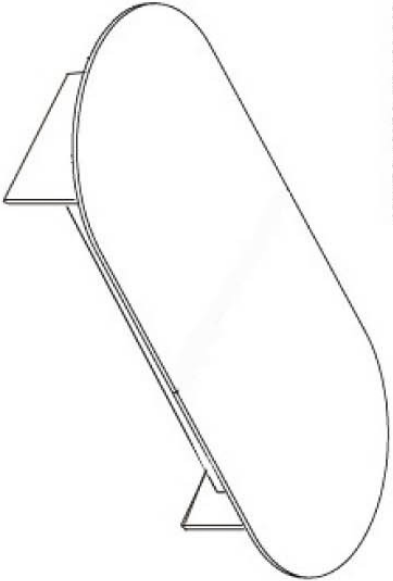

Step 4:
Using two people on each end of the table base assembly, carefully center it over the table top, lining up the pins and dowels with the holes in the bases and modesty panel.

Step 5:
Once base assembly has been set on top of the table top, secure the cams with your screwdriver

4

Step 6:
Using 3 people, carefully turn over table to right side position. Use one person on each end of the table, to make sure the table bases are being supported by hand while being turned upright. Use the 3rd person at the center of the table top to lift the table upright. Then, cover all the silver cams with the cam covers. Use the deep covers for the table bases, shallow covers for all other cams.

(Gliders may need to be adjusted on uneven floors)
