Assemble on a smooth, carpeted floor to prevent scratches or damage. Assembly will require 2 people for safety.

**Step 1:**
Screw in leveling glides on bottom of pedestal, modesty panel and L-shaped side support panel. Arrange as shown in drawing. Then attach modesty panel to pedestal and support with cam locks as shown.

Use a Phillips screwdriver to twist the cam locks

*Special Note: Some of the pre-drilled holes may be covered by the veneer. Feel for holes with your finger and use a pencil or screwdriver to poke through the veneer to access the hole.

**Step 2:**
Place 6 L-Shaped Brackets where notched, as shown below (facing inside of drawer pedestal). Using the Black 1/2” Screws, screw down into the pedestal as shown. Using Silver 1/2” Screws, screw into the side of the drawer pedestal and side support as shown. Then insert all wooden dowels.

**Step 3:**
Carefully place desktop using the dowels as guides. Now, use the 16, 1” Silver Screws to screw up through the pedestal into the desk top.
Step 4:
Remove top box drawer of the pedestal squeezing brackets on both slides. Each pedestal has two wooden top bars. Use the 8, 1 1/4" Silver Screws and screw up into/through the bar and into desk top. Use 2 screws for front and back bar, totaling 4 per pedestal.

Step 5 (for executive desks only):
Center the Center Drawer underneath the desktop and attach using 12, 1/2" Silver Screws.

Step 6
Attach all drawer pulls with the drop handles and screws provided.

www.modernofficefurniture.com
Can be used in left or right configuration

1.) Assemble with desktop face down on carpet or cardboard for protection during assembly.

2.) Attach long, worksurface brackets to underside of bridge. Use round-head screws to attach. Insert all/any hardware on worksurface.

3.) Insert any cam locks, cam pins and dowels to the side panel. Connect side panel to top panel using cam locks and pins. Use a Phillips screwdriver to twist the cam locks to secure.

4.) Screw in leveling glides on side panel.

5.) Carefully turn unit upright. Place in U-desk where you wish to connect. Level the desk if needed.

6.) Insert cam locks in holes on side panel. Insert cam pins into corresponding holes on executive desk side and credenza side. Push desks together, turning cam locks to secure the connection. Have a helper hold the desktop upright during this process.

7.) Now, attach the two long flat brackets, centered over the seams of the desks as shown in the drawing. Attach brackets with screws provided.

8.) Cover cam locks with caps.

*Special Note:
Some of the pre-drilled holes may be covered by the veneer. Feel for the holes under the veneer with your finger. You should feel a slight indentation. Poke through the veneer with a pencil or screwdriver to access the hole.
5218 Traditional Veneer Hutch

ASSEMBLY INSTRUCTIONS
1.) Assemble on a smooth, carpeted floor to prevent scratches or damage. Assembly will require 2 people for safety.

2.) Cabinet of hutch is preassembled. You will need to attach the side supports and back panel using the cam locks, cam pins, dowels and screws as shown.

3.) You may need to align the hutch doors. You can do this by adjusting the set screw on the hinge. It also helps to loosen the other screws to help manipulate the hinges.

4.) Last step is to insert two grommets in back panel and screw on door knobs. Hutch can secure to credenza with double-sided tape on bottom of left and right side panels. Cover any cam locks with caps provided.
