</tbody>
</table>

Tools Needed:
- Phillips Screwdriver
- A helper!

Part 1: Desk Shell Assembly

1.) Assemble on carpet or cardboard to protect parts during assembly. Assembly will require 2 people for safety.

2.) Locate left & right side panels. Screw in the leveling glides by hand. Then, insert wood dowels & cam pins. The wood dowels fit into the slightly larger holes, compared to the cam pin holes.

3.) Locate front panel and insert all cam locks on the left & right sides. Then, align one of the side panels and connect the panel by inserting the cam pins into the cam locks and the dowels into the corresponding holes. (see diagram on next page). Twist the cam locks with a Phillips Screwdriver to secure.

4.) Set the Desktop aside for final install once Electric Lift Frame has been assembled.

See next page for electric lift frame assembly.
