<tr>
<td>1 set of keys</td>
<td>4 Leveling Glides</td>
</tr>
</tbody>
</table>

1.) Install 4 leveling glides. Keep the front two leveling glides 1/4" taller than the back two, which means your file will be slightly tilted back. This is the proper way to level a lateral file cabinet. It keeps any unlocked file drawers from creeping open and distributes the weight more evenly.

2.) Use the screws to attach drawer pulls.

Customer Service available 8:30 - 5:00 Central Time, Monday - Friday
4-Door Hutch Assembly Instructions

Applies to:
BK/CH/FL/MJ/ML/WH2044
MJ2025-CHL

Questions? Please call 1-800-443-5117.
Customer Service available 8:30 - 5:00 Central Time, Monday - Friday

Special Note:
Location & number of cam pin, cam lock and dowel holes may vary.

Step 1

Step 2

Step 3

Figure B

Outside Door Hinges have a 'bump'

Figure A

Inside Door Hinges are flat

1.) Locate the Back Panel, Left & Right Side Panels and Center Shelf. Insert all wooden dowels, cam pins and cam locks. Connect Back Panel to the Center Shelf. Then connect the Left Side Panel, then Right Side Panel. Once all panels are connected, use your screwdriver to twist the cam locks to secure the connections.

2.) Connect the Middle Support Panel in same method.

3.) Attach Top Surface in same method.

4.) Your next step is to attach the hutch doors. See Figure “B” which identifies the Outside Doors and Inside Doors. There are different hinges that connect the inside & outside hinges. See Figure “A” to help identify. Attach two hinges per door. Use the hinges with the ‘bump’ on the Outside Left & Right Doors and the flat hinges on the Inside Left & Right Doors. The holes are piloted. Use the screws provided. Once the hinges are attached, slide the hinges over the Hinge Brackets, fitting the screw head of the Hinge Bracket in the slot of the Hinge. Once fitted, slightly tighten the set screw. Now, set your hutch on your desk. Use the double-sided tape to securely adhere to desktop.

5.) Next, it is time to adjust the doors so that they properly align. Using your screwdriver, turn the Set Screw on the hinge to adjust the depth and the screws on the hinge plate to move the door up/down.

6.) Last step is to install Cam Lock Caps and Grommet cover.
