Panel Mounted Acrylic Sneeze Guard Installation Guide

SP-1.25-8H Brackets - (to fit panels .75” to 1.25” thick)
SP-2.5-8H Brackets - (to fit panels 1.25” to 2.5” thick)

These brackets include more than one hardware option to secure clamp.

Step 1 - Each shield will require two brackets for support. Slide brackets over your cubicle panel. Use the screws to secure brackets to the panel.

Step 2 - Insert your shield into the top of the brackets. Use one screw to secure shield in place.
