

SIMPLE SADDLE TEMPLATE SYSTEM

Instructions:

The downloadable templates are available in the Medium Angle, Wide Angle, and Extra Wide Angle.

1. Cut out both sides of the template. There should be a left and right side.
2. Discard the center parts (the center parts can be used to determine existing saddle gullet angle).
3. Tape the two sides together to create the outline of the saddle gullet.
4. Use the template to trace onto cardboard.
5. Cut out the outline of the gullet from the cardboard tracing.
6. Place the outline on your horse where the fork (front of the saddle) would rest. The diagram on the right shows the proper placement of the template (blue bar).
7. Once you find which angle fits best, you can either call our toll free number 1-866-880-2121 or fill out the form at www.horsesaddleshop.com/templates.html

Special thanks to Mrs. Hook and Stormie from www.dailyequine.com/forums for their work with the pictures and instructions.

MEDIUM ANGLE

Right Side
Cardboard Template

Also Known As:
Semi QH
Reg QH
Medium Bars

Discard this side.
