Job Description

This position is a full-time position. The successful candidate will be assisting in the maintenance, repairs, and installs of overhead cranes and hoists throughout the region. This technician will start as an assistant/apprentice and as he/she progresses in knowledge and experience, he/she will be given opportunity to advance to a fully-trained technician and perform jobs independently. Monday through Friday 8am-5pm (1-hour lunch). Some overtime and occasional weekend jobs. Job starts at $18.00 per hour (based on experience/education level). We are open to part-time in the short-term until graduation.

Requirements

1. Strong electrical background, Electro-Mechanical Degree or Electrical Technology preferred
2. Ability and desire to perform any work within the trade as directed
3. Provide support in all aspects to the Service Department
4. Frequent interaction with the customer
5. Willingness to gain technical knowledge and skills through both formal and on-the-job training
6. Comfortable working at high heights
7. Willingness to attend safety training and skill development classes when scheduled
8. Maintain proper conduct and appearance
9. Able to work as a team member at any level required to complete a job
10. Adhere to all company policies including safety, appearance, and customer service
11. Onsite representation of the company as a professional
12. Job sites are in Omaha and surrounding cities. Occasional overnight stays.
13. Possess a valid driver’s license and ability to drive to customer sites for jobs
14. Works within schedules and meets critical deadlines
15. Documents and records all findings
16. Some overtime and weekends required
17. Physical demands of lifting up to 100 lbs
