System Overview

The SmartCare System is a state-of-the-art tone and visual nurse call system. This system can accommodate up to 240 Smart Devices plus up to 4 Nurse Consoles on a single system. Each 'zone' can be represented by any of the Smart Devices. Smart Devices include Nurse Consoles for nurses’ stations, Smart Dome Lights for resident rooms, Duty Stations for break rooms, Smart Zone Lights for hallway intersections, or Staff Stations for labs or exam rooms. Switch Stations are plugged directly into any of the Smart Devices via an RJ45 connection.
