

PEDIAKID Appetite–Weight Gain

Stimulates Appetite - Improves Weight Gain - Boosts Energy & Calories

Natural appetite stimulant for underweight children, and children with ADD & ADHD

Ingredients	Heath Benefits
Nectar of Agave	Exclusive to INELDEA laboratories, and 100 % organic, Nectar of Agave is especially recommended for children, as an unrefined natural sugar with low glycemic index and non-cariogenic. Agave is nectar rich in mineral salts with exceptional nutritional qualities.
Fructo-oligosaccharides (FOS)	Pre-biotic fibers of Inulin and Oligo fructose have a Bifidogenic effect, favorable to the good intestinal flora for a better assimilation of essential ingredients in Pediakid Appetite-Weight Gain. This exclusive compound is the result of the latest research on organic fibers in increasing the absorption of vitamins, minerals, trace elements and retaining calcium from foods.
Natural extracts of vegetables, vitamins and minerals:	
Fenugreek	Fenugreek is widely used by nursing mothers to increase milk supply and for other medicinal properties. Fenugreek and Endive are a rich source of fiber, vitamins and minerals. In synergy, they are natural plants traditionally known to improve appetite and support weight gain
Endive	
Spirulina	Spirulina marine algae is a complete source of proteins containing essential amino acids with Vitamins B complex, C, D, E, and essential fatty acids. Spirulina is also rich in natural minerals of potassium, calcium, chromium, copper, iron, magnesium, manganese, phosphorus, selenium, sodium, and zinc, making it an excellent source of quality nutrition and invaluable ally of good health.
Turmeric	With many medicinal properties, Turmeric helps with the stomach upsets and other digestive ailments. It stimulates the spontaneous appetite, and it is a very good metabolic energizer.
Ginger	Tonic and disinfectant, its consumption can be an invaluable aid in case of upset stomach linked particularly to digestive problems.
Watercress	Remineralizing and stimulating agent, Watercress contains a large amount of Vitamins A and C, iron, calcium and folic acid. Watercress is a good source of phytochemicals and antioxidants, and is mainly used for its "tonic" properties and to strengthen the overall immunity of the organism.
Copper gluconate	Trace elements that play an essential role in maintaining energy and dynamism necessary for school daily activity, and specially for children with ADD and ADHD who lack the vitality, attention, concentration and focus.
Manganese gluconate	
Natural Raspberry concentrate	Raspberries contain a large amount of polyphenol antioxidants with potent health benefits. Raspberries are also a rich source of dietary fiber, vitamins B, C, folic acid and natural minerals of copper, magnesium, manganese, iron that will complement a child's insufficient daily nutrition in antioxidants.

Directions:

Under 5 years of age: 1 teaspoon, after breakfast and lunch
Above 5 years of age: 2 teaspoons, after breakfast and lunch

For good results, recommended regimen of 2-3 weeks. Renew if necessary.
