

PEDIAKID 22 Vitamins & Oligo-Elements

**Promotes health and general equilibrium - Sustains balanced growth
Builds Strong Bones & Teeth–Support Healthy Eyes and Brain Functions**

Ingredients	Benefits
Nectar of Agave	Exclusive to INELDEA laboratories, and 100 % organic, Nectar of Agave is especially recommended for children, since it consists of unrefined natural sugar with low glycemic index and is non-cariogenic. Agave is a botanical succulent plant that produces a nectar rich in mineral salts with exceptional nutritional qualities. Its sweetening power is superior to any other sugars, yet with fewer calories.
Fructo-oligosaccharides (FOS)	A compound synergized with pre-biotic fibres of Inulin and Oligofructose that have a Bifidogenic effect, favorable to rebalancing the good intestinal flora (Bifidobacteria), thus contributing to a better assimilation of the essential ingredients present in the composition of Pediakid, as well as those nutrients contained in food (vitamins, minerals, trace elements...). This exclusive compound is the result of the latest research on organic fibres concerning health issues. It makes possible with a notable increase and a significant degree in the absorption and retention of calcium from food intake.
Natural extracts of plants, vitamins and minerals:	
Carrot	Largely known to sustain the health of the eyes, carrot is very rich in minerals and contributes to the equilibrium of the natural nutrition of the organism for a better health.
Watercress	With the mineralizing and invigorating effects, Watercress is used to reinforce the general immunity of the organism.
Spinach	Reputedly rich in vitamin A (high in <u>lutein</u>), vitamin C, vitamin E, vitamin K, manganese, folate, iron, vitamin B2, calcium, potassium, vitamin B6, folic acid, copper, protein, phosphorus, zinc, magnesium, niacin, selenium and omega-3 fatty acids, Spinach has an exceptional nutritional value essential to the growth and balanced development in children.
Beetroot	Very nutritious and energizing, rich in betaine Beetroot is largely recommended by Pediatricians to improve cardiovascular health with blood oxygenation and to invigorate the liver and kidneys function.
Parsley	As powerful digestive tonic, Parsley acts in synergy with Beetroot to maximise the health benefits to the organism.
Betacarotene	As antioxidant, Betacarotene is essential to cell development, vision and healthy skin.
Vitamin E	Anti-oxidant action, Vitamin E protects the skin and cell membranes.
Vitamin C	Instigates and stimulates the natural immunities. Aids to absorption of iron and calcium.
Vitamin B1	Helps transform glucides into energy and the functioning of the nervous and muscular systems.
Vitamin B2	As co-enzyme, Vitamin B2 intervenes favorably in the assimilation of proteins and fatty acids.
Vitamin PP	Contributes to transmission of nerve impulse and participates in synthesis of fatty acids
Vitamin B5	Contributes to healing, growth of hair and nails – reinforces bone strength.
Vitamin B6	The synthesis of lipids and proteins, Vitamin 6 has a positive effect on the nervous equilibrium.
Vitamin B8	Sustains cellular metabolism of skin, hair and nails.

Vitamin B9	As Folic Acid, Vitamin 9 is essential to a wide range of bodily functions, most importantly to production of red blood cells.
Vitamin B12	Vitamin B12 is an essential element in the formation of red blood cells.
Fluorine	Makes teeth more resistant to attacks of dental plaque and bacteria.
Iodine	Beneficial effects on Thyroid, development of the brain, better regulation of digestive functions and important actions in the immune system.
Magnesium	Neuro-muscular regulator, and regulator against allergy conditions.
Manganese	Enzymatic co-worker, controls the neuro-transmitters and energy metabolism.
Molybdenum	Essential to the smooth progress of enzymatic reactions (muscular tone).
Selenium	Active anti-free radicals, protects the body against stress due to vitamin E deficiency.
Zinc	An essential mineral of biologic and public health importance. Zinc deficiency delays children growth and maturity, as they are more susceptible to infectious diseases and digestive disorders.
Natural Apricot and Orange concentrates	With high antioxidant levels of Vitamins A, B, C and natural minerals, Apricot and Orange are nutritious fruits known to help fight against physical and intellectual fatigue.

Directions:

Under 4 years of age: 1 teaspoon, after breakfast and lunch

Above 4 years of age: 2 teaspoons, after breakfast and lunch

Bottle of 125 ml - ACL : 7936710 – Gencod : 3700225600258
