

Pediakid Anxiety-HyperActivity

Relieves Restlessness & Stress - Helps Reduce Mood Swings
Stimulates Concentration & Focus-Promotes Emotional Balance

Ingredients	Benefits
Nectar of Agave	Exclusive to INELDEA laboratories, and 100 % organic, Nectar of Agave is especially recommended for children, since it consists of unrefined natural sugar with low glycemic index and is non-cariogenic. Agave is a botanical succulent plant that produces a nectar rich in mineral salts with exceptional nutritional qualities. Its sweetening power is superior to any other sugars, yet with fewer calories.
Acacia Fibers from Organic Agriculture	Compound synergized with pre-biotic fibers of inulin and oligofructose that have a bifidogenic effect and favorable to rebalancing the good intestinal flora (bifidobacteria), thus contributing to a better assimilation of the essential ingredients present in the composition of PEDIAKID, as well as those contained in food (vitamins, minerals, trace elements...).
Natural extracts of plants, vitamins and minerals:	
Passion fruit	A good source of beta-carotene, potassium and dietary fiber, Passion fruit juice is high on Ascorbic acid (Vitamin C). Rich in antioxidants, Lemon balm in medicinal uses has the soothing and calming effect. Reinforced by the presence of Lemon balm, Passion fruit, without inducing drowsiness, is effective in reducing stress and restlessness, in the children's daily activity.
Melissa/Lemon Balm	
Gentian	Gentian has some medicinal properties as anti-fungal, anti-inflammatory and anti-digestive upsets. As an excellent tonic, Gentian is one of the best strengtheners of the Immune System.
Hop	Well-regarded for their anti-inflammatory, anti-bacterial, and anti-fungal properties, Hop and Bitter orange work in synergy to improve the nervous equilibrium and particularly to regulate the digestive disorders believed to be one of the origins of mood swings.
Bitter orange tree	
Vitamin B6	Act in synergy as regulators of the nervous and psychological equilibrium.
Magnesium gluconate	
Natural blackcurrant concentrate	High vitamin C content, good levels of potassium, phosphorus, iron and vitamin B5, and a host of other essential nutrients, blackcurrant fruit has the potential to inhibit the inflammation mechanisms that are the origin of infectious and neurological disorders.

Directions:

Under 4 years of age: 1 teaspoon, after breakfast and lunch
Above 4 years of age: 2 teaspoons, after breakfast and lunch

Bottle of 125 ml - ACL : 7824276 – Gencod : 3700225600227
