

## PEDIAKID Baby Gas

**Relieves upset tummy caused by gas- Improves bloating and digestive discomfort - Maintains a healthy digestive system**

Ingredients	Benefits
<b>Nectar of Agave</b>	Exclusive to INELDEA laboratories, and 100 % organic, Nectar of Agave is especially recommended for children, since it consists of unrefined natural sugar with low glycemic index and is non-cariogenic. Agave is a botanical succulent plant that produces a nectar rich in mineral salts with exceptional nutritional qualities. Its sweetening power is superior to any other sugars, yet with fewer calories.
<b>Acacia Fibers from Organic Agriculture</b>	Compound synergized with pre-biotic fibers of inulin and oligofructose that have a bifidogenic effect and favorable to rebalancing the good intestinal flora (bifidobacteria), thus contributing to a better assimilation of the essential ingredients present in the composition of PEDIAKID, as well as those contained in food (vitamins, minerals, trace elements...).
<b style="color: #92D050;">Natural extracts of herbs and plants:</b>	
<b>Fennel</b>	Because of a strong consumption of milk and a digestive system not yet mature, infants often suffer from colic. These spasmodic abdominal pains responsible for tears and agitation in infants, are generally accompanied by burping and digestive tract gas emission. It is scientifically recognized that fennel alleviates the baby colic. It indeed helps to reduce the intensity of the intestinal spasms while increasing the motility of the small intestine (1).
<b>Chamomile</b>	The medicinal use of chamomile to treat spasms and inflammation of the digestive tract, ballooning, flatulence and eructation, is today well recognized. A study showed its effectiveness in association with other plants in the treatment of infant colic (2).
<b>Lime</b>	The flowers of the lime tree are traditionally used to fight against digestive spasms and disorders.
<b>Peppermint</b>	Traditionally used for its digestive properties, peppermint has shown at the time of various studies its effectiveness against intestinal spasms and abdominal pains.
<b>Lemon balm</b>	It is often associated with peppermint to fight digestive disorders. In partnership with fennel and other plants, it contributes to relieve chronic colic (3).

### Directions:

Under 6 months of age: 1 ml in 60 ml of water (1 to 2 feeding-bottles per day)

Above 6 months of age: 2 ml in 60 ml of water (2 to 4 feeding-bottles per day)

Bottle of 60 ml ACL: 4394415 - Gencod: 3700225602016
