

Pediakid Satiety - Weight Control
Natural Appetite Regulator - Reduces Hungry Feelings
Rich in Natural Fibers & Peptide Proteins
All Natural Dietary Supplement

Ingredients 100% Natural Origin	Benefits
<p>According to US Department of Health & Human Services, being overweight during childhood and adolescence increases the risk of developing high cholesterol, hypertension, respiratory ailments, orthopedic problems, depression and type 2 diabetes as a youth. One disease of particular concern is Type 2 diabetes which is linked to overweight and obesity, and it has increased dramatically in children and adolescents.</p>	
<p>Whey protein naturally rich in Glycomacropeptides (GMP)</p>	<p>Whey protein is naturally rich in Glycomacropeptides (GMP) acting as a stimulator of Cholecystokinin biosynthesis; a neuronal mediator involved in the control of satiety sensation and energy intake.</p> <p>Whey protein contains a bioactive peptide acting on the natural serotonin secretion, improving mood behavior and reducing stress level, which is an usual factor of the appetite disorder.</p>
<p>Dietary fibers including Bifidogenic Chicory Inulin, Oat Betaglucans and Chromium</p>	<ul style="list-style-type: none"> • Oat is naturally rich in soluble fibers as betaglucans. Betaglucans are involved in the regulation of glucose and fat metabolism. • As bifidogenic prebiotic, Chicory Inulin increases the beneficial microflora in the large bowel and boosts the immune functions. • Contribute to the regulation of various satiety hormones, and reduce the urge to eat and enhance the satiety fullness sensation. • Chromium as an essential trace mineral helps keep fat and glucose level under control, to prevent the apparition of cardio vascular health diseases generally associated with overweight and obesity
<p>Isomaltulose</p>	<p>Natural Isomaltulose sweetener is a very low glycemic, non-cariogenic carbohydrate, leading to a long lasting energy and satiety feeling, without any insulin secretion peak.</p>

Pediakid Usa – Copyright 1/2012

Preparation:

Mix the content of one Pediakid Satiety sachet (0.35 oz) with 3.4 oz of water. It is possible to prepare as a drink mix with a cocktail shaker.
