

Red Pomegranate

Anatolian "Kilim" is pileless, hand-woven, flatwave traditional rug. Centuries old patterns are preserved respecting the heritage but also evolved in time in order to coordinate with modern age trends. "Kilim" patterns are derived from symbols that were used in ages gone by to communicate and to convey ideas. Over time, some of signs merged with myths, acquired hidden significance & moved into the world of esoteric symbolism. *Real Pomegranate* reanimated select "Kilim" patterns on the meticulously woven fabrics and hand sewn using vegan leather to create contemporary fashion bags.
