

Red Pomegranate

Peshtemal is a flat-woven fabric that originated almost 600 years ago in Mediterranean / Anatolian civilisations. The essential ingredient of the Peshtemal is the Turkish cotton grown on the rich soil in south of Turkey nearby the sunny Mediterranean shore.

Peshtemal is up to four times lighter and can soak water as much as a regular terry towel. Pestemal towel dries in notime and gets softer with every wash, thanks to the uniqueknitting technique and 100% natural cotton. It doesn't take up undue space in your drawer, it rolls up nicely making it perfect to carry to the beach, to the park or the gym.
