

## N2517CH\* Sava Showerhead

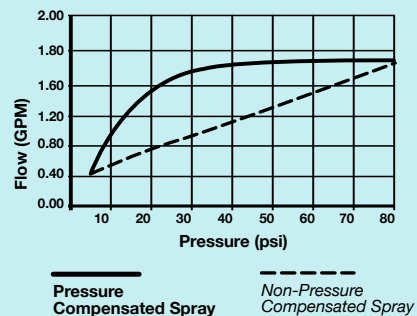

1.75 GPM (6.6 LPM)

The look of luxury and performance with the benefits of saving. The Sava showerhead has an oversized sprayhead for extra wide coverage and the patented pressure compensator ensures a consistent flow for the duration of your shower.

- 1.75 gallon per minute flow rate (6.6 litre per minute)
- Niagara patented non-removable pressure compensator provides a constant output of water regardless of pressure
- Extra large spray head, 4.4" (113mm) diameter
- 360° ball joint swivel for adjustment
- Corrosion resistant high-impact ABS thermoplastic body
- Overall dimensions: 4.4" diameter x 3.1" (113 x 80mm)
- 10-year warranty

**Certifications:** Meets or exceeds: ASME A112.18.1 / CSA B125.1; ASTM B368

### 1.75 GPM Flow Rate

### Savings

Savings	Water (gallons)	Electric (kWh)	Gas (therms)	Dollars
<b>Electric Water Heater</b>	5,475	309	n/a	\$59
<b>Gas Water Heat</b>	5,475	n/a	17	\$42

\*based on FEMP/DOE data and an average water rate of \$4 per 1,000 gallons.
