

I believe foliar spraying soybeans with Neptune,s Harvest Liquid Fish Fertilizer gives you three major benefits:

1. Larger and greener leaves
2. A healthy plant
3. Higher test weight

My beans for the last three years (2008- 2010), regardless of the weather conditions, have weighed 57# to the bushel. I feel the Fish Fertilizer is well worth the cost.

Gary Klumpp Appleton, N.Y.
