

05-09 Speaker Cover Installation Instructions

Directions:

1. Remove plastic speaker ring by snapping off.
2. Place billet cover over raised portions of speaker ring. Center and mark.
3. Drill 7/32 holes through ring.
4. Insert button head screws through holes in speaker rings and thread nuts onto them.
5. Place billet cover over plastic ring, inserting screws through holes drilled.
6. Thread four remaining nuts and lock washers onto screws that are accessible (two are not).
7. Tighten four nuts from rear and reinstall assembly.
