

04-06 Pontiac GTO/GM LS Truck 4.8L/5.3L/6.0L UPR Oil Catch Can Installation

Assembly & Installation Instructions:

1. Install the steel mesh into the inlet chamber side of the top of the can and leave the outlet empty then install the screen and O-ring to hold it in. (Inlet side is the side coming from the valve cover).
2. Screw in the pipe plug or petcock into the bottom of the can.
3. Install the mounting bracket to the oil catch can lid using the supplied Allen head bolt and key.
4. Install the bottom of the can to the top.
5. Install the 3/8 fittings into the side of the can.
6. Remove the factory passenger fuel rail cover and engine covers if so equipped.
7. At the passenger side front of the intake you will see an 11/32 hose going from the top of the intake to the top of the valve cover this is the crank case to intake vent, remove that hose.
8. Locate the bolt or stud in the front of the passenger side cylinder head at the top, the only thing this bolt/stud holds up is a ground wire.
9. Remove that bolt or stud (13mm socket) from the head.
10. Using the provided bolt first slide the provided washer on then angled mount with the catch can, followed by the spacer and ground strap then thread into the front of the head.
11. Connect the inlet side of the can to the valve cover and the outlet side to the engine.
12. Double check your connections, level the catch can and tighten the mounting bolt.
13. Press the fuel rail cover and engine cover back into place if you have either.

NEVER RETURN OIL FROM THE CATCH CAN BACK INTO THE ENGINE
