

Ultra Paws®

# Skijor Hip Belt & Tow Line

Instructions for:

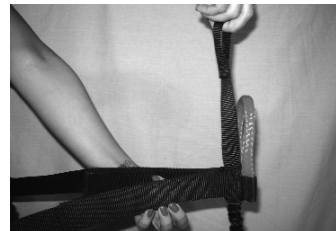

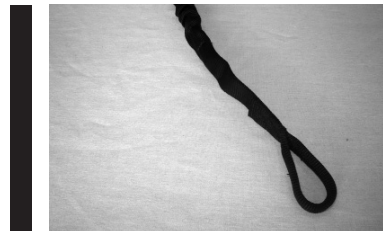

- **Putting on the Skijor Hip Belt**
- **Attaching the Tow Line**
- **Using the Quick-Release (Patent 7,284,505B1)**

1. Open the snap on the elastic waist strap, step into the Belt, and pull it up to your hips.
2. Adjust the waist strap until it is snug but not tight. Position the belt on your hips, not your waist.

3. Attach the Tow Line to the Skijor Belt:
  - a. Loop the woven end of the Tow Line through the loop in front of the Quick-Release.
  - b. Pull the opposite end with the brass snap through the loop and pull tight.

4. Using the Ultra Paws® Patented Soft Quick-Release:
  - a. With tension on your Tow Line, hold the red cord in one hand.
  - b. Pull the red cord toward you to release the Tow Line from the Skijor Belt.
  - c. The Velcro will separate, releasing you from the Tow Line and your dog.
  - d. To reattach the Quick-Release to the belt, press the Velcro straps together.
  - e. Use the handle near the brass snap for extra control of your dog.
