

- 10-32 tapped rails
- Includes 25 10-32 rack screws
- Includes four ¼-20 grounding studs
- Gangable
- Ships knocked down
- 800 lb. weight capacity
- 19" EIA compliant
- Made in the USA
- Limited Lifetime Warranty

Part Number	1911-3-200-24
Width	20.81"
Depth	15.04"
Height	47.37"
Weight	29.00 lbs.
Shipping Dimensions	49.75" L x 7.25" W x 5.5" H
Material(s)	CRS (Cold Rolled Steel)
Color/Finish	Black Powder Coated Finish
UPC	879447005622
Warranty	Limited Lifetime Warranty
Shipping Method	FedEx Ground

Durability	The 2-Post Relay Rack's welded L-bracket base and cold rolled steel design forms a sturdy, reliable rack. To maintain its weight capacity, the rack must be bolted or secured to the floor. We always recommend installing your heaviest equipment at the lowest points on the rack.
Gangable	Ganging holes on both sides of the rack make it easy to gang and secure multiple racks together. The sides also feature cable pass through holes to allow cabling to pass from one rack to the next.
Electrical Grounding	The rack features four ¼-20 x 0.5" grounding studs on the inside of the rails. These studs allow you to ground your equipment directly to the stud or with the use of bus bars, not included. The rack also includes serrated tooth washers to allow the frame to be grounded during the assembly process.
Open Top Design	The 2-Post Relay Rack's completely open top allows for smaller trunk cabling, and makes the rack compatible with most ladder racks and accessories.

- What's in the box
- Qty 2 – 24U Rails
- Qty 2 – L Bases
- Qty 2 – Upper Support Brackets
- Qty 4 – 1/4-20 Grounding Studs
- Qty 25 – 10-32 Rack Screws
- Qty 1 – Assembly Hardware Pack
