Votre nouvelle Caravan® Canopy nécessite très peu de soin ou d'entretien. Vous pouvez vous assurer toute une vie d'utilisation en suivant ces simples règles.

## • Warning •

- Not compiling with these warnings will void your Caravan® Canopy warranty!
- DO NOT set-up or leave your Caravan® Canopy assembled in rain, hail, sleet, snow, drizzle, lightning, strong winds or any harsh weather conditions.
- Do not allow water of any kind to accumulate on the canopy top.
- Use Tie-downs, Stakes or Weight Bags to secure your Caravan® Canopy in windy conditions. Commercial Stake Kits and Weight Bags can be purchased as accessories directly from Caravan® Canopy Int'l.
- Never set-up your Caravan® Canopy over barbeque or near open flame. Although the canopy top is fire retardant, serious injury or damage to canopy can still occur.
- Always follow directions when setting-up your Caravan® Canopy. Be aware of hands and fingers when expanding or collapsing frame.
- It is recommended to remove canopy top from frame after take-down. Storing top on frame may result in fabric tears or other damage requiring repair or re-purchase.
- Never clean the canopy top in a washing machine - serious damage will result. If cleaning is required, while set-up on the frame, use a light detergent on a cloth and gently clean top by hand, then rinse off with a garden hose.
- Do not use detergent or hand cleaner if top has custom silk-screened graphics.
- Allow top to dry completely before storing.
- Keep your canopy off of steep slopes and inclines
- Do not use your Caravan® Canopy as a permanent shelter. It is designed for temporary use only!
- Never leave your Caravan® Canopy unattended.

- Utilice ataduras, estacas o bolsas de peso para asegurar su Caravan® en condiciones ventosas. El juego de estacas comerciales y las bolsas de peso (vea la página 4) pueden ser adquiridos como accesorios directamente de Caravan® Canopy Int'l.
- NUNCA DEBERÁ DEJAR LA SOMBRA BAJO LA TORMENTA. DE NINGUNA MANERA DEBERÁ tratar de armar su Caravan® cuando haya tormenta, lluvia, nieve o relámpago. No deje que la lluvia se acumule encima de la cubierta - puede causar daños.
- Nunca trate de armar su Caravan® sobre el asador o cerca del fuego. Aunque la cubierta de la sombra es resistente al fuego, serias lesiones o daños a la sombra pueden ocurrirse.
- Siempre siga las instrucciones cuando vaya a armar su Caravan®. Tenga mucho cuidado con sus manos y dedos cuando esté expandiendo o doblando el armazón.
- Nunca guarde su Caravan® con la cubierta conectada en el armazón. Siempre remueva la cubierta del armazón y guarde la cubierta por separado. De no ser así, puede causar desgarrones en el tejido u otros danos que tendrá que ser reparados o adquirirla de nuevo.
- Nunca trate de lavar la cubierta en la lavadora (podría ocasionar serios daños). En caso de que necesite limpiarla, hágalo mientras esté tendida sobre el armazón. Use un detergente ligero sobre un trapo y suavemente limpie la cubierta a mano y enjuague utilizando la manguera. (NO utilice detergente ni trate de limpiar a mano si su cubierta tiene impresiones graficas de orden especial. En ese caso use solamente la manguera para enjuagar.) Deje que la cubierta se seque completamente antes de guardarla.

- Servez-vous des tendeurs, de piquets ou de sacs de lest pour assurer votre Caravan® Canopy Int'l en cas de vent. Des lots de piquets et de sacs de lest peuvent être commandés comme accessoires directement chez nous.
- Ne laissez jamais votre tonnelle sans surveillance pendant une tempête. Ne tentez pas de monter votre tonnelle sous la pluie, sous la neige ou pendant un orage. Ne laissez jamais l'eau de pluie s'accumuler sur la toile de la tonnelle - des dégâts irréversibles pourraient survenir.
- N'installez jamais votre Caravan® au dessus d'un barbecue ou à proximité d'une flamme. Même si la toile est ignifugée, il y a toujours un risque de vous brûler ou d'endommager la tonnelle.
- Suivez toujours le mode d'emploi quand vous montez votre Caravan®. Faites attention à vos mains et à vos doigts pendant le montage et le démontage de l'armature.
- Attention ! Toujours ôtez la toile avant de plier la structure. Le démontage de la tonnelle avec la toile toujours accrochée peut déchirer ou endommager celle-ci et nécessiter des réparations, voire même son remplacement.
- Ne tentez jamais de laver la toile dans un lave-linge (risques de sérieux dégâts). Si la tonnelle nécessite un nettoyage, mettez un peu de détergent doux sur un chiffon et frottez doucement la toile, puis rincez avec un tuyau d'arrosage (ne pas frotter, ni utiliser un détergent si la toile est imprimée ; arrosez-la, tout simplement).
