**CAUTION! Two adults recommended for the removal or installation of glass front.** Use caution when handling glass. Failure to do so could result in personal injury or property damage.

**Glass Front Removal**

Remove Glass Front

1. Remove the two (2) ST3X8 screws located on the glass panel. See Figure 1.
- Note:** Do not discard screws, screws will be reused.
2. Lift up evenly on the bottom edge of the glass to disengage the J-hooks from the shoulder bolts on the appliance.

Figure 1. Remove Glass Front

## Log Installation

- Place small logs G (3) and H (2) on the fuel bed as show in Figure 2 & 4.

Figure 2. Place Small Logs

- Place medium logs A (2), B (1), C (1), D (1), E (1) and F (1) on the fuel bed as show in Figure 3 & 4.

**Note:** You may not need to use all the logs on the SF-ALL48-BK.

Figure 3. Place Medium Logs

Figure 4. Log Placement Reference per Appliance

- Place the small clear crystal media (included with the appliance) in between the log layout as show in Figure 5. .

Figure 5. Place Small Clear Crystal Media

## Glass Front Installation

### Installing Glass

6. Install front panel. Locate the J-hooks on the back side of the glass on the four shoulder bolts on the appliance opening. Engage the shoulder bolts. See Figure 6.
7. Press down on top edge of glass to fully engage J-hooks on the shoulder bolts.

**Note:** Make sure the glass is fully attached to the fire-box so that the control panel can work properly.

Figure 6. Glass Front Removal/Installation

8. Thread the two (2) ST3X8 screws into the threaded holes on the glass panel. Check the alignment of the glass panel and securely tighten the screws. See Figure 7.
